Amending the Administrative Code by amending Section 3.13 thereof, to limit expenditure by the Art Commission for administrative costs in connection with the adornment of any public building to an amount not to exceed five per cent of the amount allowed for adornment, and requiring approval by the Board of Supervisors for any expenditure in excess thereof.

File No. 501-68, Ordinance No.

Supervisor Morrison stated that, although the Board has been trying for some time to provide for adornment of public buildings, satisfactory results have not yet been achieved. Supervisor Morrison suggested there might be certain buildings on which it would be desirable to spend a large amount for adornment and other buildings on which a much smaller expenditure would suffice. He asked that a communication be directed to the Art Commission over his signature, asking for comments on a proposal that in lieu of the two per cent limit for adornment of any building, there be a limit of two per cent per year, so that more funds could be spent on a particular building if needed and less on another if not needed.

Reference to Committee.

The following from the Emergency Calendar was taken up:

Appropriating \$12,000, Sheriff's Office, for temporary salaries, keepers; an emergency measure.

File No. 134-69-1, Ordinance No.

Referred to Finance Committee.

Passage for Second Reading.

The following recommendation of Finance Committee, heretofore considered and temporarily postponed, was taken up:

Authorizing grant of scenic and recreation easements to the United States of America in and upon Peninsula watershed lands in San Mateo County in consideration of the relocation of a four-mile section of the Junipero Serra Freeway in San Mateo County south of Ralston Avenue.

File No. 606-68, Ordinance No.

Supervisor Blake reviewed the history of past attempts to use part of the watershed lands as recreation areas and of the controversy over location of the Junipero Serra Freeway through these lands. He stated that his opposition to the subject proposal is primarily to the terms agreed to by the Public Utilities Commission for location of the freeway along the Ridge Route. Supervisor Blake stated that in his opinion San Francisco by these actions will be giving away a valuable right plus losing payment for the freeway right of way.

Supervisors von Beroldingen and Tamaras spoke in favor of the subject proposal. Supervisor von Beroldingen stated that San Francisco is granting only a nonpossessory interest to the Federal Government. The granting of the easement will insure that San Francisco cannot lose its possessory interest in the land to ABAG. Also, it will mean that San Francisco will pay lower taxes on the property. Supervisor von Beroldingen urged passage as a means of protecting San Francisco's investment in land and water quality.

James K. Carr, General Manager of Public Utilities, reviewed the history of San Francisco's attempts to have the freeway routed as far from the lakes as possible. He described the presently proposed route as a "refined" Ridge Route. He said that the Public Utilities Commission believes that the benefits to the City in protection of its water supply and open space and recreational values for the people of San Francisco transcend any dollar valuation.

Mr. Carr displayed a drawing showing location of the refined Ridge Route. He said that State Highway Engineers had estimated the difference in cost between the route by the lakes and the original Ridge Route as about seven million dollars; however, there was some dispute among engineers relative to cost. The refined Ridge Route will cost somewhat less than the original Ridge Route, but such reduction will not be substantial.

The refined Ridge Route was developed in informal consultation with representatives of the State Division of Highways. It is now a fixed line but must yet have approval by the State Highway Commission. Any freeway agreements to be entered into will be executed by the State Division of Highways and San Mateo County.

In response to a question by Supervisor Morrison, Mr. Carr stated he is confident the grant of easement to the Federal Government will carry out recreation and conservation concepts in a manner consistent with policy directives of the City and County.

In response to a question by Supervisor Morrison, Director of Property Wortman verified the fact that former Director of Property Rezos recommended to the Mayor that the right of way for the Ridge Route be granted to the State without cost and interest and the eight mile section north of Ralston Avenue be waived in consideration for the State's locating that portion of the freeway along the Ridge Route.

In response to questions by Supervisor Morrison, Deputy City Attorney Cohen stated that even if the United States Government should make an assignment of the easement to another party, San Francisco's rights would not be diminished. The Federal Government has no rights to the property. The subject grant of easement only restricts the use of the property. An amendment of the agreement would require the consent of all parties: San Francisco, the United States, the State of California, and San Mateo County.

In response to a question by Supervisor Mendelsohn, Public Utilities Commission President William E. McDonnell stated that the only difference between the two areas involved is that the use of the 4,000 acres lying east of the reservoir are designated for active recreational use; the remaining 19,000 acres are designated for inactive recreational use. To expand active use to a 6,000 or 7,000 acre area would require action by the Public Utilities Commission and the Board of Supervisors only.

In response to questions by Supervisor Blakè relative to the freeway route proposed by the State, Leo J. Trombatore, Deputy District Engineer, State Division of Highways, stated that the State's premise has been that it could prevent contaminated water from flowing into the lakes. All water collected on the slopes could be captured and pumped to its natural outfall. The State saw no problem at all in doing this.

Supervisor Ertola voiced his concern that by this proposed action San Francisco might be limiting itself in perpetuity to this open space use of the land in question. While he favors retaining the land in its present condition, he still wants to be sure that San Francisco will still have the power to change that use.

Deputy City Attorney Cohen stated that while—under the subject grant—San Francisco cannot change the topography of the area, it could change its policy relative to use of the land, and the Federal Government could not stop such an action, provided that the use is not in any way incompatible with preserving the land as open space.

Passed for second reading by the following vote:

Ayes: Supervisors Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—10.

Noes: Supervisor Blake—1.

Request Granted.

Application of the Mills Bill, passed by last session of the State Legislature, to financing completion of the Bay Area Rapid Transit System.

Supervisor Morrison called attention to reported action of The Bay Area Citizens to Save BARTD, calling upon the State Legislature and the Governor to apply the provisions of the Mills Bill, passed by the last session of the State legislature, to the urgently needed financing for completion of the Bay Area Rapid Transit System. Under the Mills Bill, according to this group, financing could be made available by increased property taxes on land values which are increased because of their proximity to BARTD stations.

Supervisor Morrison requested that a communication be directed to the City Attorney asking for his analysis of the Mills Bill as a possible solution to the current BARTD deficit.

No objection and Clerk directed to comply.

Reference to Committee.

Reductions by State Board of Equalization of assessed valuation of various utility companies' properties.

Supervisor Pelosi presented a communication from the County Supervisors Association, transmitting report of study by Supervisor Raymond Larison relative to reductions over the past few years by the State Board of Equalization of the assessed valuation of various utility companies' properties.

Such reductions by the State Board requires comparable increases in local property taxes to make up the difference in revenue received. Supervisor Pelosi requested that this matter be made the subject of committee hearings, with both representatives of the State Board of Equalization and the Assessor being asked to testify.

Referred to Finance Committee.

Endorsing change in procedure for election of the President of the United States.

Supervisor Pelosi requested that the appropriate committee of the Board consider the question of change of procedure for election of the President of the United States, with abolition of the electoral college system and election of the President by direct popular vote.

Referred to County, State and National Affairs Committee.

Urging assignment of one, hot-line, emergency telephone number for use by citizens in summoning help for any kind of emergency.

(28 parcels of property affected.)

The Chair inquired if anyone present wished to object.

Mrs. Ora Crowley, 2317 - 30th Avenue, owner of Lot 15, Block 1523, inquired as to the reason for the increased assessment. A representative of the Assessor explained that personal property had hitherto been secured to the wrong real property. That has now been corrected.

James K. Carr, General Manager of Utilities, reviewed the history of the proposed revision of fares.

Bourne, Public Utilities Counsel, advised that the Board of Supervisors has the power to approve or disapprove the proposal of the Public Utilities Commission, but does not have the authority to make any changes in the proposal. The Board may rerefer the matter to the Public Utilities Commission with changes recommended by the Board, either generally or specifically. Mr. Bourne added that the City Attorney does not view the last sentence of Charter Section 130 as being applicable in this factual circumstance; therefore, the Board may continue consideration to another day if it so desires.

John M. Woods, General Manager, Municipal Railway, displayed charts illustrating present fares in other major cities of the United States and the effect of present fares and the proposed revision on the tax rate. Mr. Woods then answered questions of Supervisors.

**Legislation Tabled. Recommendation Rereferred to
Public Utilities Commission.**

Making a finding of necessity for tax subsidy in connection with proposed revision of Municipal Railway schedule of rates, fares and charges.

File No. 322-68-1, Resolution No.

Supervisor Morrison spoke in opposition to the fare revision as proposed. He said that he felt the Board should know in some detail what the Railway's modernization plan is before restructuring the rates. There should be some projection of the loss of passengers that would result, since loss of passengers will mean increased automobile usage and added costs for parking, traffic regulations, etc. Payment of the Municipal Railway deficit out of the tax rate is easier on the home owner than increased fares, since the business community pays its share of the deficit in its tax payment. Supervisor Morrison added that the proposal for reduced fares for the elderly during off-peak hours is good; it is unfortunate it was included with the other proposed fare increases. This is an inadequate proposal by the Public Utilities staff and should be returned to the Commission.

Supervisor Mailliard spoke in opposition. He said this is the same proposal as that submitted to the Board in September, 1968. The essential problem is the question of who is to pay for this service and how much. Many non-residents use the Municipal Railway. An increase of fare for the non-residents would benefit the San Francisco taxpayers. Also, the management should do more in the way of merchandising their product, thereby increasing patronage during off-peak hours and adding to revenue. Supervisor Mailliard said he felt the Public Utilities Commission should be asked to consider this matter further and submit a more comprehensive proposal.

Supervisor Blake said that the proposed special fare for senior citizens has been favored by the Board of Supervisors for many years. He said he found it frustrating to have it tied to this general fare increase. Supervisor Blake said he would like to see some consideration given to establishment of a downtown assessment district for support of the Municipal Railway, since the downtown area is the destination of almost every transit line.

Supervisor Tamaras said he did not find a five-cent fare increase at this time exorbitant in view of the fact that personal income is at a far higher level than it was sixteen years ago when the present rates were established. The taxpayers are now paying almost fifty per cent of the operating deficit and should not be asked to pay more to finance the urgently needed improvement of the system.

Supervisor Mendelsohn said he will support the fare increase. New sources of revenue are needed and the proposed increase will bring in that additional revenue while at the same time providing a decrease in rate for senior citizens. He added that he does not like the proposed

increase in cost of school tickets and—whatever the result of today's action—would urge the Public Utilities Commission to study this matter further and submit recommendations.

Supervisor Francois stated that he agreed with Supervisor Mendelsohn and regretted the fact that an increase in the cost of school tickets is included in the proposal.

Adopted.

Supervisor Blake, seconded by Supervisor Mailliard, moved that the legislation be tabled and the Public Utilities Commission be requested to resubmit their recommendations for each class of fare separately so that the Board may consider each on its individual merits.

The following recommendation of Joint Finance and Cultural Activities Committee was taken up:

Requesting San Francisco Stadium, Inc., to submit a new letter of intent for rehabilitation and/or expansion of Candlestick Park Stadium, giving due consideration to all current relevant financial and economic factors.

File No. 354-68, Resolution No. 53-69.

Supervisor Pelosi stated that he felt the Board should consider the question of competitive bidding in regard to operations of the non-profit corporation. The City has on previous occasions used this device in order to construct public facilities that the Board has considered worthy of construction, but this action necessarily by-passes the voters. Supervisor Pelosi added that it was interesting that the nonprofit corporation comes to the Board with a package wherein the Board approves essentially the work of an architect, legal firm, and a construction firm, who present a dollar price-tag on a facility to be built. He said that in his opinion this arrangement is convenient but essentially incorrect in terms of municipal financing, because ultimately the public has the obligation of paying for the facility. Supervisor Pelosi said that he would like to see all future nonprofit corporation proposals subject to competitive bidding.

Adopted.

Motion to Amend.

Supervisor Pelosi, seconded by Supervisor Mendelsohn, moved amendment as follows: Page 2, Paragraph 3, after "expansion of Candlestick Park Stadium," ADD "including provision for competitive bidding for all construction, and".

In response to questions, Controller Nathan Cooper stated that he believed the amendment to be well taken. He said he had some reservation about inclusion of the scoreboard in a call for competitive bid since that item will depend somewhat on the ability of the contractor to secure advertising. However, if difficulties arise, the corporation could approach the City and County for an amendment at a later date.

Adopted.

Motion for Previous Question.

Supervisor Francois, seconded by Supervisor Mendelsohn, moved the previous question on the motion to amend.

Noes: Supervisors Blake, Mendelsohn, Morrison, Pelosi—4.

Supervisor Morrison stated that he had voted against such a proposal in 1967 and saw no reason to change that vote now. The proposed capital improvement will impose on the taxpayers each year an expenditure of at least \$625,000 and possibly as much as one million dollars per year. San Francisco has many problems which might be corrected by the use of some of this money. Supervisor Morrison said he believed the Board should reorder its schedule of priorities and should give higher priority to those other problems.

Supervisors Mendelsohn, Tamaras, Pelosi, and von Beroldingen spoke in favor of the proposal before the Board as a worthwhile project, since sports are an important and integral part of the community.

Supervisor Blake stated his hope that the letter of intent will include provisions for San Francisco's participation in television and telephone rights and receipts from food concessions.

The privilege of the floor was granted to Mr. H. A. Garnet, owner of Block 2127, Lot 2, who stated that he owns only a one-quarter interest in the property rather than the one-half interest credited to him by the Assessor.

Mr. Samuel Duca, representing the Assessor, stated that ownership of this property is recorded as a joint tenancy.

Deputy City Attorney Stark advised that this appears to be a tenancy in common erroneously designated as a joint tenancy.

Ayes: Supervisors Blake, Tamaras, von Beroldingen—3.

Noes: Supervisors Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi—8.

Request Granted.

Amendment of zoning laws to permit construction of convalescent hospitals.

In connection with the foregoing zoning appeal, Supervisor Francois stated that he supports the Department of City Planning and the respondents; however, there is a great need for more convalescent homes in San Francisco and there must be some way to amend the zoning laws to permit land to be used for that purpose,

In response to questions by Supervisor Blake, both Zoning Administrator Steele and Deputy City Attorney Kenealey advised that if the Board reclassified property to a C-2 district, the property could then be put to any use permitted within a C-2 District; the Board of Supervisors cannot place any restrictions on it.

Supervisor Blake requested that the City Attorney be asked to research this problem with a view to recommending legislation which would permit the construction of convalescent homes in residential districts while at the same time protecting the residential quality of the districts.

No objection and Clerk directed to comply.

Supervisor Pelosi explained that the Landmarks Preservation Advisory Board presents their recommendations to the City Planning Commission, which in turn considers proposals and presents the Commission's recommendations to the Board of Supervisors. ROLL CALL FOR THE INTRODUCTION OF MEASURES AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Supervisor Blake called attention to recent newspaper reports of rejection by the State Highway Commission of a plea by the General Manager of the Golden Gate Bridge and Highway District that the State proceed with the widening of Richardson Avenue approach in San Francisco to the Golden Gate Bridge. According to the report, the Highway Commission attacked Mayor Alioto and the Board of Supervisors of San Francisco as not being sufficiently impressed with the need for improved vehicular transportation and for leaving no room for a solution to the problem other than that put forth by Mayor Alioto.

Supervisor Blake said he did not feel this was a fair criticism of San Francisco and voiced his hope that Mr. Shelley will be able to bring about a better understanding between San Francisco officials and the State Division of Highways.

Request Granted.

Disposition of unallocated funds in the accounts of the various public utilities.

Supervisor Blake called attention to press reports of plans to reallocate revenues within San Francisco's public utilities structure, specifically, the suggestion of the General Manager of Public Utilities that \$500,000 of the Municipal Railway annual deficit be transferred to Hetch Hetchy Water Supply by transferring Railway electrical operations and related staff to Hetch Hetchy.

Supervisor Blake suggested that hearings be held by the Finance Committee for the purpose of considering a policy for disposition of unallocated funds in the accounts of the various public utilities with some consideration being given to a determination of ways and means whereby the Board of Supervisors might be vested with authority over disposition of utility surpluses, even if this might require approval of a Charter amendment establishing separate departments of water, transportation, and airport.

Supervisor von Beroldingen expressed some doubt concerning the Finance Committee's power under Charter Section 22 to undertake the investigation suggested by Supervisor Blake and requested that the City Attorney be asked to render his opinion as to how the Committee might proceed to pursue Supervisor Blake's suggestions.

No objection and Clerk directed to comply.

File No. 274-68-3, Ordinance No.

Refused Adoption.

Motion to Rerefer to Committee.

Supervisor Ertola, seconded by Supervisor Boas, moved rereferral to Committee for a period not to exceed thirty days.

Supervisor Ertola stated that he has received confirmed reports that there is a large group of interested persons in the Bayview-Hunters Point area whose views have not been heard. He said that he has been informed that the Board has until June 30, 1969, to submit an application to the Federal Government. He is asking for this delay so that (1) persons who have felt excluded from the planning will have an opportunity to be heard and (2) consideration may be given to the advisability of requesting that the funds set aside for the Mission District be allocated for use of the Bayview-Hunters Point District instead.

In response to questions by Supervisor Tamaras, John Anderson, Assistant Deputy for Development, stated that he believes there is a possibility that members of the Mission District will want to be included in a model city program; however, if they do not, the Mayor's staff has been told that San Francisco's application may be amended to include, for the Bayview-Hunters Point Model City Program, the balance of funds set aside for the Mission District. Mr. Anderson added that many opportunities have been afforded all interested to participate.

- Sec. 4.4. Election of Officers: Filling of Vacancies. Amend entire section to read "The Agency shall by a majority vote elect its officers from among the members at a special meeting to be held within ten (10) days of the effective date of this ordinance. Each officer shall serve one year from the date of the first regular meeting of the Agency or until he or she shall resign, be removed, or otherwise become disqualified."
- Sec. 5, line 5, after "There shall be" ADD "not more than";
- Sec. 5.3. Appointment. Amend entire section to read "The Agency shall appoint the members of the Council by a majority vote of the Agency."

Sec. 6.3, line 7, after "provide such matching" ADD "contributions in cash or in kind"; DELETE "funds".

Motion to amend adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Explanation of Vote.

Supervisor Mailliard stated that when the subject of adoption of a model city program was before the Board previously he had voted against it. The present proposal is, in his opinion, completely dissimilar from the proposal before the Board earlier. The present plan seems to hold out great promise, but, for the record, Supervisor Mailliard said he wanted to admonish those who will be doing the planning to spend a considerable effort on determining where the funding will come from. Supervisor Mailliard said that in his opinion it is logical to believe that a good part could be funded by the private sector and he is certain part can come from Federal funds, or by some combination of the two.

In response to a question by Supervisor Mendelsohn, John Anderson said he believed he could say that if a member of the group which has not participated thus far indicates he wishes to join in, he will be appointed to the Agency.

SPECIAL ORDER—2:00 P.M.

Hearing Continued.

Hearing of all persons interested in or objecting to the proposed vacation of a portion of Clay Street between Webster and Buchanan Streets.

File No. 208-64.

The privilege of the floor was granted the following:

Opponents:

Charles Molinari, Attorney-at-Law, representing the Pacific Heights Association, who presented to members of the Board copies of petition signed by property owners of the area;

William Gilmartin, 2224 Clay Street, President, Pacific Heights Neighborhood Council;

Three unidentified men;

Mrs. Arthur Blumenfeld;

Edgar Bissinger;

Alfred Cavanaugh;

John L. Field, Architect, 2416 Webster Street;

Richard King, 2295 Washington Street.

Proponents:

Thomas M. Jenkins, Attorney-at-Law, representing petitioners, Pacific Medical Center, Inc.;

Messrs. Patterson and Crow of the architectural firm of Stone, Marracini, and Patterson;

Mr. H. R. Berquart, owner of five parcels in the 2300 block of Washington Street.

Mr. Herman Benecke, representing the Director of Public Works, stated that the department has no recommendation.

Mr. Robert Passmore, representing the Director of Planning, stated that the street vacation is in conformity with the Master Plan. The Planning Commission has twice in the past reviewed plans predicated upon vacation of this street area. However, because substantial changes were contemplated when last heard by the City Planning Commission in 1968, proponents were required to appear before the Commission with final plans for a new public hearing and new authorization for a conditional use of the site. This matter will be heard by the Commission on March 6, 1969.

Director of Property Wallace Wortman testified as to the appraised value of the street area.

Dr. Ellis D. Sox, Director of Public Health, stated that there is a distinct need for additional hospital beds in San Francisco and he was highly in favor of positive, favorable action on this application.

Supervisor Morrison said he was not prepared to act without the recommendation of the Planning Commission.

Supervisor Morrison, seconded by Supervisor Boas, moved that consideration be continued to March 10, 1969.

In response to a suggestion by the Chair, Supervisor Morrison, seconded by Supervisor Boas, moved, as an amendment to the pending motion, that consideration be continued to the first Monday following

the decision of the City Planning Commission with respect to plans for the hospital.

Messrs Jenkins and Patterson urged favorable consideration on subject legislation at this time, since the Center is presently in default on submission of Part III of its application. Submission must await Board action vacating the street area.

In view of the need for prompt action, Supervisor Francois suggested that Supervisor Morrison withdraw his amendment of the pending motion so that the matter will come before the Board again on March 10 whether the City Planning Commission has reached a decision or not.

Supervisor Morrison withdrew his amendment of the pending motion and restated his motion that consideration be continued to March 10, 1969.

Supervisor Tamaras, seconded by Supervisor von Beroldingen, moved that a communication be directed to the appropriate Federal and State authorities, advising them of the need to delay making a decision and urging that the allocation of funds to the Pacific Medical Center be held available until March.

No objection and Clerk directed to comply.

Consideration Continued.

The following from Health Committee with recommendation "Do pass after amendment", heretofore considered and temporarily postponed, was taken up:

Enacting a new Housing Code for the City and County; and repealing existing Housing Code.

File No. 497-68, Ordinance No.

(Proposed amendment is as follows: "Page 25, Section 7.07. Minimum heat requirements. First paragraph, line 6, after "room for" DELETE "10" and ADD "11"; second paragraph, line 7, after "rooms circulate for" DELETE "12" and ADD "11".)

Supervisor Ertola called attention to the fact that the new code contains essentially the same provision as does Section 503 of the present Housing Code relative to the right of employees of the City to enter buildings for the purpose of inspection. The United States Supreme Court in June, 1967, held Section 503 to be unconstitutional in the case

of *Camara versus Municipal Court of the City and County of San Francisco*, 87 S. Ct. 1727, 18 L.Ed. 2d, 930.

Supervisor Ertola asked why this same provision is included in the proposed code and whether it would not be advisable to set forth in the code the right of an individual to protection against unwarranted invasion of his home.

Deputy City Attorney Killelea stated that in the *Camara* case the plaintiff had sought a restraining order against his prosecution for refusal to make his room available for inspection. The court held in that case that Mr. *Camara* had a right to insist upon a search warrant. The California Code of Civil Procedure has since been amended (Sections 1822.50 et seq.) to define and regulate the issuance of inspection warrants.

In response to Supervisor Ertola's statement that he did not feel he could support the proposed legislation unless the entire question of inspection procedures and the right of entry is clarified, Deputy City Attorney Killelea agreed that such procedures should be set forth in more detail than they have in the past and stated that he would be happy to work with Supervisor Ertola in drafting an amendment to the code, incorporating therein the provisions of the State law setting forth guidelines for obtaining inspection warrants and the penalties for disobedience.

Supervisor Mendelsohn, seconded by Supervisor Blake, moved that consideration be continued to February 24, 1969.

Motion adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Passage for Second Reading.

The following recommendation of Governmental Services Committee was taken up:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Consideration Continued.

The following from Legislative and Personnel Committee with recommendation "Do pass after amendment", following review and report by Civil Service Commission, was taken up:

Salary Standardization Ordinance, Charter Sections 151 and 151.1 effective July 1, 1969, for miscellaneous employees.

An ordinance fixing and determining schedules of compensation to be paid municipal officers and employees and non-certificated employees of the San Francisco Unified School District whose offices and

positions are allocated to classifications specified herein and compensations for which are subject to the provisions of Sections 151 and 151.1 of the Charter, establishing work schedules and conditions of employment, and method of payment for various work schedules; providing that the said schedules of compensation shall be effective beginning July 1, 1969.

File No. 270-69-1, Ordinance No.

Supervisor Tamaras, seconded by Supervisor Boas, moved that consideration be continued to March 3, 1969, and that all data, tentatively considered by this Board as warranting amendments to the schedule of compensations of the Salary Standardization Ordinance, be transmitted to the Civil Service Commission for review and analysis, and report thereon to this Board not later than February 25, 1969, with a report as to what other changes, and the cost hereof, such proposed amendments would require to maintain an equitable relationship with other rates in said schedule.

Reference to Committee.

(Supervisor Francois dissenting in Committee.)

Amending Section 1079 of the Police Code to provide that permits and licenses to operate taxicabs granted subsequent to December 15, 1968, shall be nontransferable.

File No. 514-68, Ordinance No.

Supervisor Francois said that very few persons favor the subject proposal and that it appears to him that the Board would go a long way toward meeting the objections of all concerned by not authorizing this new type of permit but instead by referring the legislation to the Finance Committee with instructions to investigate the possibility of charging some substantial sum which would go into the City's coffers. This would tend to meet the objections of existing permit holders and of applicants who would prefer a transferable permit and, in addition, would provide much-needed revenues for the City.

Supervisor Boas stated that he felt the Board's concern is with the public convenience and necessity and not with the investment of permit holders, and that the public presently is not being well served.

Supervisor Gonzales supported Supervisor Boas' statement.

Supervisor Tamaras stated that in his opinion the need is not for

more permits but for more drivers of existing taxicabs.

Supervisor Morrison said he feels the City should regulate taxicabs the same as the State regulates public utility carriers: when a holder of a permit goes out of business, his permit should be turned in. There should be a uniform policy as to all taxicab permits and the matter of the shortage of operators rather than permits should be more adequately explored.

Supervisor Morrison added that he will not put his stamp of approval on the subject proposal as long as the Police Commission refuses to divulge the method the Commission used in determining which applicants should be granted permits and how many permits each should be granted.

Supervisor Francois, seconded by Supervisor Mendelsohn, moved referral to Finance Committee.

Supervisor Blake moved, as an amendment to the pending motion, that consideration be continued one week and that the Mayor be requested to inform the Board of his thinking on the subject. Motion lost for want of a second.

Supervisor Mendelsohn said he thought Supervisor Blake's suggestion was a good one and suggested that—if the matter is referred to committee—the committee ask the Mayor for his recommendations. Also, that a communication be directed to the Board of Permit Appeals, asking for a delay in announcing a decision on the appeals before that body relative to the issuance of additional permits and the criteria used in determining to whom the permits should be issued until the Board of Supervisors acts on the legislation before it.

No objection and Clerk directed to comply.

Rules of procedure for recent joint public hearing with the Redevelopment Agency of redevelopment plans for the Hunters Point and Butchertown Redevelopment Project Areas.

Supervisor Ertola called attention to the fact that during joint public hearings with the Redevelopment Agency of redevelopment plans for Hunters Point and Butchertown Redevelopment Project Areas, he had been advised that it was not necessary that witnesses be sworn nor that witnesses be available for cross-examination.

Since that time, Supervisor Ertola said he had read a 1964 decision of the State Supreme Court holding that such public hearing by a local legislative body does require witnesses to be sworn and made subject to cross-examination.

Supervisor Ertola requested that the City Attorney be asked for an opinion as to whether the Board acted properly in not following such procedure.

No objection and Clerk directed to comply.

Urging continued exploration of incineration method of garbage disposal.

Supervisor Ertola called attention to a newspaper article in the Examiner of February 16, 1969, in which the State Director of Public Health was quoted as saying that California is "running out of places to put our waste and is running out of time in which to create a new and better system." In light of this, Supervisor Ertola expressed his hope that San Francisco will continue to explore the modern method of reducing the volume of garbage by smog-free incineration methods.

Reference to Committee.

Transfer of jurisdiction over housing relocation services from the Redevelopment Agency to the City and County.

Supervisor Morrison requested that a communication over his signature be sent to the General Manager, Personnel, and to the Civil Service Commission, asking what progress has been made to effect the transfer of jurisdiction.

No objection and Clerk directed to comply.

Report on policy of Board of Directors, Golden Gate Bridge and Highway District, relative to deposit of District funds.

Supervisor Pelosi reported that the Board of Supervisors' representatives on the Board of Directors, Golden Gate Bridge and Highway District—Supervisors Pelosi, Blake and Tamaras—had attended a District meeting on February 14, 1969, at which a majority of the members voted to allow deposit of some thirty million dollars of surplus District funds in commercial banks. Supervisor Pelosi said that he and Supervisors Blake and Tamaras objected strenuously against this action as not being in the public interest since such deposit results in a lower return on these funds. Evidently the action was taken on the strength of threats by local banks not to buy San Francisco's municipal bonds if the funds were not deposited in the banks.

Reference to Committee.

Endorsing State legislation which will permit the Golden Gate Bridge and Highway District to engage in all forms of mass transportation.

File No. 285-69-2.

NEW BUSINESS.

Adopted.

The following recommendations of Finance Committee were taken up:

Accepting offer of North America Monorail Corporation to cause in-depth studies of an aerial transport system between San Francisco and the Airport to be made at no cost to or moral or legal obligation on the part of the City.

File No. 408-68-3, Resolution No. 128-69.

Supervisor Blake said he favors enactment of the subject legislation but believes it to be entirely inadequate. In the very near future the new superjets will be in service and the need for improved ground transportation to and from the Airport will be upon San Francisco before anything is done.

Supervisor Boas stated that by 1975 passenger traffic at the Airport will be double what it is now. The problem facing the Board is "What would be the best system of mass transportation between San Francisco and the Airport?" There is information available to San Francisco. In Cleveland a subway rapid transit system to the airport has been in operation less than a year. In Pittsburgh, Westinghouse Corporation is running an experimental air bus. In Seattle, the only monorail system in the United States is in operation. In Boston the public rapid transit system runs close to the airport from which air travelers go to the airport by way of municipal bus. Supervisor Boas said he felt members of the Board of Supervisors, with the Director of Planning and the General Manager of Public Utilities, should visit these cities—with the possible exception of Boston—to view these facilities and talk with planners and transportation experts.

Supervisor von Beroldingen suggested that a tour of transit facilities in New York and Montreal, Canada, might be worthwhile.

Requests Granted.

Supervisor Francois called attention to the fact that San Francisco will have a serious problem before any plans come to fruition. He asked that a communication be directed over his signature and that of any Supervisor wishing to join him, to the City Planning Commission, Public Utilities Commission, and Department of Public Works, asking what plans are underway to provide interim solutions to the problem of transportation to the Airport and if any thought has been given to providing special bus lines on Bayshore Freeway, for example, or any other means of solving a traffic problem which will become aggravated before any permanent plan can be put into operation.

No objection and Clerk directed to comply.

Supervisor Tamaras, joined by Supervisor Morrison, requested that a communication be directed to the Public Utilities Commission, asking if they have studied the possibility of using hydrofoil transportation to the Airport and, if not, to please do so.

No objection and Clerk directed to comply.

Supervisor Morrison said that in his opinion San Francisco's transportation planning should be done by the Department of City Planning and the Public Utilities Commission rather than by private firms. In August or September the three firms will report to the Board that monorail is feasible and each will want to build such a system. What will the Board do then? The Bay Area Rapid Transit District has already done extensive studies of monorail and has ruled it out because it is too expensive and because of the instability of the trains and the difficulty in switching cars.

Supervisor Mendelsohn agreed that it could be of great value to the Board of Supervisors to tour some of the transportation systems in use in other cities. In the meantime, the Public Utilities Commission should be asked to look again at the possibility of using the Southern Pacific right-of-way for construction of a transportation link between San Francisco and the Airport that could at some future date be connected with BARTD and with West Bay Rapid Transit District systems.

Adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Tamaras, von Beroldingen—9.

Supervisor Boas, seconded by Supervisor Francois, moved that the Director of Planning and the General Manager of Public Utilities be requested to arrange a tour, preferably in March or April, 1969, to the cities of Cleveland, Pittsburgh, and Seattle—and possibly Boston, New York, and Montreal if this appears feasible—for themselves and as many members of the Board of Supervisors as are available to make

the trip, for the purpose of viewing the various methods of rapid transit in use in those cities and meeting with planners, transportation directors, and top officials responsible for construction and operation of the transit systems.

Supervisor François explained what items are to be purchased.

Supervisor Tamaras asked why there has been no response from the Police Department to his letter inquiry as to needs of the department to aid it in its fight against crime in the streets.

Sergeant Long of the Police Department advised Supervisor Tamaras that he would investigate and inform the Supervisor of the result. He called attention to the fact that each year in the departmental budget request the Police Department sets forth its needs.

Supervisors Gonzales and François suggested that the department look into the possibility of requesting State funds for the purpose of teaching Spanish to members of the uniformed force. Supervisor Tamaras stated he felt much more would be accomplished by recruiting members of the force from among the Spanish-speaking community.

Reference to Committee.

Supervisor Blake requested that a committee of the Board hold public hearings and ask the Chief of Police, the Police Commission, and the Mayor for their views as to how more policemen can be assigned to patrolling the streets; specifically, ask for their views on use of the National Guard for police duty on the State College campus so that more policemen can be freed for other duties.

Referred to Fire, Safety and Police Committee.

Request Granted.

Supervisor François stated that Fire, Safety and Police Committee has held hearings on the general problem of crime in the streets. One of the problems is that the size of San Francisco's police force is lim-

ited by the Charter. Supervisor Francois requested that a communication be directed to the Charter Revision Committee asking their consideration of possible amendment of Charter Section 35.5 in this regard.

No objection and Clerk directed to comply.

Supervisor Francois said that if further hearings are held they should include the questions of recruitment, promotional opportunities, the seniority system, and civil service examinations for members of the uniformed force.

File No. 270-69-1, Ordinance No.

**STATEMENT BY SUPERVISOR TAMARAS RELATIVE
TO SALARY STANDARDIZATION ORDINANCE**

Your Legislative and Personnel Committee presents to you today its recommendations in connection with File No. 270-69-1, the Salary Standardization Ordinance of 1969 for Miscellaneous Employees pursuant to Sections 151 and 151.1 of the Charter.

Each member of the Board has before him today a copy of the Civil Service Commission's Salary and Wage Survey dated January 31, 1969; a copy of the Commission's letters to the Board of Supervisors

under dates of February 5 and 26, 1969, transmitting a draft of the administrative provisions of the Salary Standardization Ordinance as recommended by the Civil Service Commission; and a copy of the Commission's letter dated February 26, 1969, addressed to the Clerk of the Board, transmitting supplemental recommendations for salary increases and other revisions of the proposed Salary Standardization Ordinance. The foregoing constitute a comprehensive compilation of Commission recommendations.

Also before each Board member today is the pamphlet dated February 28 entitled "Recommendations of the Legislative and Personnel Committee in Connection with the Salary and Wage Survey 1969-70" which reflects the compensation schedule recommendations of the Committee.

ADMINISTRATIVE PROVISIONS: The Civil Service Commission has considered and decided upon numerous and varied requests for amendments to the administrative provisions of the Salary Standardization Ordinance, affecting working conditions of the employees involved. Of those requests, the Civil Service Commission has recommended approval of 8, as enumerated in the Commission's letters of February 5 and 26.

The Legislative and Personnel Committee studied intensively these administrative provisions, giving careful attention to representations made both verbally and in writing by interested individuals and representatives of organizations. As a result, the Committee recommends that the Board approve and adopt only the amendments to the administrative provisions of the Salary Standardization Ordinance appearing in the copy of the ordinance furnished you at this meeting. Any further additions or deletions proposed by the members would have to be the subject of an appropriate motion to amend.

Briefly, the changes in the administrative provisions recommended by the Committee are as follows:

SECTION IV (F)—ADDITIONAL COMPENSATION—This new paragraph provides that premium pay for Electronic Data Processing assignments shall not be authorized after July 1, 1969, if Electronic Data Processing classifications are available for permanent appointments.

SECTION IV (I) — ADDITIONAL COMPENSATION — This amendment provides a premium rate to those employees in the department involved in the New Careers Program who will be assigned to coordinate the program in the departments and to immediately supervise the New Careerists. The premium recommended is 5% for the coordinators and 5% for the immediate supervisor of two or more New Careerists.

SECTION IV (J) — ADDITIONAL COMPENSATION (NEW SECTION)—This new section provides additional compensation of \$15.00 per month to permanent employees who translate to and from a foreign language. This payment is subject to certification by the department as to the need for such special service and approval by the Civil Service Commission.

SECTION V (A)—OVERTIME—This amendment provides control over the extended work week payments. As each position becomes

vacant, the extended work week shall be discontinued unless an extension is recommended by the Appointing Officer, subject to Civil Service Commission approval and authorized in the annual budget.

SECTION V (A)—OVERTIME—Under the provisions of the current ordinance, an employee who works a 6th day which is also a legal holiday, receives premium pay of time and one-half, once. This amendment proposes that an employee who works a 6th day which is also a holiday, will be paid as premium pay an amount which is represented by a calculation of time and one-half multiplied by time and one-half, or 2.25 of the base pay. Under this formula an employee would be paid 18 hours pay for 8 hours worked.

SECTION V (A)—OVERTIME (NEW PARAGRAPH)—The first part of this new section permits permanent employees who are not entitled to vacation during the first year of service to work overtime on a *voluntary* basis and to use such time as compensatory time off. Such compensatory time off is in lieu of premium pay and subject to Appointing Officer and Civil Service Commission approval and limited to 5 days during the first anniversary year.

The second part of this new section permits permanent employees who are not entitled to sick leave with pay during the first 6 months of service to work overtime on a *voluntary* basis to make up sick leave used. This overtime work is in lieu of premium pay subject to Appointing Officer and Civil Service Commission approval and limited to 5 days during the first 6 months of service. This section also provides a deduction from final compensation or retirement contributions if the employee separates from the service before such overtime worked is sufficient to make up the amount of compensatory time used.

SECTION VI (A)—HOLIDAYS (NEW PARAGRAPH)—This new paragraph will authorize employees to work on holidays which fall on the 2nd, 3rd or 4th day of their regular work week. This amendment provides that the work must be voluntary and useful as certified by the Appointing Officer, and will be performed without premium payment. The employee will be allowed an in-lieu day off for such holiday worked. No funds will be authorized for replacement of employees absent on such in-lieu days.

SECTION VII—METHOD OF PAYMENT (A) (D)—These are technical amendments in order to clarify and explain procedures for salary increments for employees appointed under limited tenure authorization to a promotional position; provision for advancement within the compensation schedules if during the fiscal year 1969-70 records of service are established and maintained by electronic data processing.

It is the recommendation of your Legislative and Personnel Committee that the proposed amendments to the administrative provisions of the Salary Standardization Ordinance as set forth above be adopted, and therefore they are included in the comprehensive motion for amendment with which I opened these remarks.

SCHEDULE OF COMPENSATIONS: The Legislative and Personnel Committee presents to the Board its recommendations for amendment of the schedule of compensations. The members of the Committee have made their recommendations with a full awareness of the needs of the community, the services rendered by the employees,

the requirement for maintenance of equitable relationships, the mandate of the people as set forth in the Charter that compensations shall be in accord with the generally prevailing rates of wages for like service and working conditions, and the necessity for preventing undue demands upon the property tax base.

Each half-schedule number (.5) represents approximately a 2½% increase above the next lower schedule number, and each full schedule (for example, Schedule 21 compared with Schedule 20) represents approximately a 5% increase above the next lower schedule.

The miscellaneous employees of the City and County of San Francisco, those covered by the Salary Standardization Ordinance before you today, number 14,458, divided into 1,290 classifications.

I quote the following tabulation showing, generally and approximately but as accurately as possible, the increases provided for miscellaneous employees in 1968 and those which this year are recommended by the Civil Service Commission and/or Legislative and Personnel Committee:

Classes and Positions Recommended for Increases by Civil Service Commission:

	<i>Classes</i>	<i>Positions</i>	<i>Cost of Increases</i>	<i>Cost of Retirement</i>
1968	1,109*	12,766*	\$8,157,330	\$489,439
1969	1,242**	14,428**	7,056,916	699,795

*87 classes, 722 positions not included for increase by Civil Service Commission.

**48 classes, 30 positions not included for increase by Civil Service Commission.

Classes and Positions Recommended for Increases by the Legislative and Personnel Committee Additional to Those Recommended by the Civil Service Commission:

	<i>Classes</i>	<i>Positions</i>	<i>Cost of Increases</i>	<i>Cost of Retirement</i>
1968	105	485	\$170,567	\$10,235
1969	194	925	293,650	32,302

Classes and Positions Recommended by the Legislative and Personnel Committee for Increases Less Than Those Recommended by the Civil Service Commission:

	<i>Classes</i>	<i>Positions</i>	<i>Amount of Reduction</i>	<i>Reduction in Retirement Cost</i>
1969	371	2,695	\$1,556,916	\$1,171,259

Total Classes and Positions Recommended for Increase:

	<i>Classes</i>	<i>Positions</i>	<i>Cost of Increases</i>	<i>Cost of Retirement</i>
1968	1,178	13,464	\$8,327,897	\$499,674
1969	1,251	14,442	5,463,000	600,093

It should be noted that of the total amount of increases granted, the Civil Service Commission estimates that approximately \$165,000 is

attributable to new positions created during the period which has elapsed since March 1968.

Also noteworthy is the total of requested salary increases, referred by the Board to the Civil Service Commission on February 17, 1969, aggregating \$7,022,424, which was in addition to the \$7,645,144 previously recommended by the Commission on January 31, 1969.

It is to be emphasized that the total costs involved will not necessarily be reflected in the forthcoming fiscal year's budget total. Many of the employees affected have not yet, nor will they in the next succeeding fiscal year or possibly three fiscal years, attain the maxima of their respective salary ranges.

COMMISSION AND COMMITTEE RATIONALE: The Civil Service Commission at a meeting held on January 16, 1969, approved, as amended, its staff salary and wage survey report for 1969-70, and ordered the submission of its recommended schedule of compensations to the Board of Supervisors.

As of January 31, 1969, the Civil Service Commission estimated that increases for the craft classes fixed under the provisions of Section 151.3 of the Charter, the wages for Municipal Railway operators, and the salaries of the Police Department and Fire Department uniformed forces, will be approximately 6%. The cost of such increases, including retirement costs, is estimated to be \$6,216,443.

Other costs in the total salary picture which are unknown at the present time are those involving salary increases which may be granted to certificated personnel by the Board of Education, as well as increased costs of sick leave with pay, vacations, temporary assignments to higher classifications, overtime, and other fringe benefits.

The salary and wage survey includes for the first time the classifications of the positions in the Port Commission which will be under the jurisdiction of the City and County beginning February 7, 1969. Because of time limitations, the Commission was unable to complete the classification and salary survey by January 16, 1969, the date of the Civil Service Commission action on salary standardization. The classifications included in the 9300 series are class titles similar or identical to the class titles used by the State, and the salaries indicated are the salaries established for these classifications by the State and in effect at the time of the take-over by the City and County.

The Committee following review of the Port positions and the general salary structure of the State employment system, as well as comparable positions in the City and County service, together with pertinent data submitted and in consideration of maintaining proper relationships within the service, has recommended for each of the positions involved a salary or wage which includes an approximate 5% increase over rates currently paid, to preserve parity of increase with most other City and County employees. It is anticipated that the Civil Service Commission next year, if there is a salary standardization survey, will include all Port employees in its report, and will assign some Port classifications to the Charter Section 151.3 standardization formula.

The Civil Service Commission with its staff, under Section 151 of the Charter, represents the expert authority in these matters, and upon

its findings and conclusions, the Board of Supervisors must place some measure of reliance, although within certain procedural limitations, the Board of Supervisors has the authority to approve, amend, or to reject the schedules of compensations proposed by the Civil Service Commission. Nevertheless, after public hearing, and after a comprehensive and detailed study of the report of the recommendations submitted by the Civil Service Commission, together with the data and arguments submitted by representatives of taxpayer, civic, and employee interests, the Legislative and Personnel Committee concludes that the recommendations of the Civil Service Commission, which constitute the second highest dollar total ever submitted to this Board, must be modified.

The recommendations submitted by the Legislative and Personnel Committee result in a proposal that most employees' salaries be increased by approximately 5% over the rates effective during the current fiscal year as of June 30, 1969.

The recommendations were predicated in the case of each classification upon a review, individually and class by class, of all available data, a consideration of relationships with allied classifications and a weighing of compensation-affecting influences in private and other public jurisdictions, including among others cost-of-living increases in the past.

The deliberations of the Committee were made complicated and hypersensitive by the multiplicity of diverse interests and objectives which the Civil Service Commission's recommendations generated. Organizations of private citizens generally contended for sharp reduction of the Commission's proposals, while labor interests advocated retention or upward revision of the Commission's recommendations. The contentions of both factions were supported by persuasive arguments, and a tense situation was recurrently agitated by unconfirmed rumors of a referendum to the voters on one hand, and a work stoppage on the other.

In the face of widely divergent but always insistent pressures, the Committee offers a solution which it believes is in strict conformity with the people's edict, expressed in the Charter, that the "Supervisors shall fix a compensation which shall be in accord with the wages paid in private employment or other governmental organizations in the state for the nearest comparable service and working conditions."

In effect, the Committee's action for the first time under modern salary standardization substantially reduces the Civil Service Commission's total recommendation, but will grant most employees under Section 151 and Section 151.1 of the Charter an approximately 5% salary increase. A small number of employees for whom no job data was available and for whom no fair relationship with other classifications was discernible have not been granted a salary increase, or have been granted a salary increase of 2½%, in either case upon the recommendation of the Civil Service Commission. It is stressed that in the absence of data which the Board of Supervisors may transmit to the Commission in support of a proposed increase for a particular classification, the Board of Supervisors under the law does not acquire jurisdiction to increase the Commission's recommendation.

On the other hand, another small number of employees for whom

the Commission had recommended salary increases of more than 5% will be granted raises of 5%, thus maintaining parity with the great bulk of the 14,458 employees included under Charter Sections 151 and 151.1.

To summarize in arithmetical fashion the various amounts involved in the definitive actions of the Civil Service Commission and the Legislative and Personnel Committee, the following recapitulation is set forth:

Total amount of salary increases and amendments initially recommended by Civil Service Commission staff	\$7,645,144
Total amount of salary increases and administrative amendments recommended by Civil Service Commission staff, revised	\$ 111,567
Total amount of salary increases and administrative amendments recommended by Civil Service Commission	\$7,768,711
Total amount of salary increases and administrative amendments recommended by L. & P. Committee	\$6,063,093
Total amount of reduction effected by recommendations of L. & P. Committee	\$1,705,618

CONCLUSION: Your Legislative and Personnel Committee, Supervisor Roger Boas, Supervisor Jack Morrison and the writer, has held eight separate sessions of several hours' duration each, during daytime and evening hours, in order to give mature deliberation to the important matter of salary standardization. It has conducted an exhaustive study of the data submitted by the Civil Service Commission, individual employees, other interested persons, and organizations. The counsel of all members of the Board was cordially invited at any or all of those meetings, and the Committee welcomed that which was offered.

The Committee members present the foregoing recommendations to you with complete unanimity. They feel strongly that they represent the best possible solution of an admittedly complex problem. It will inevitably create the possibility of incongruities and inconsistencies cropping up in the near future, which can be remedied in due course, but on the whole, it treats substantially all of the employees alike and without disturbance of relationships which now exist.

The Committee members are extremely hopeful that the manifest equity of their over-all recommendations will be acceptable to all interested factions, that the employees will continue to enjoy a livelihood supported by adequate wages, and that the business community and other private taxpayers will continue to enjoy without disruption a favorable economy bolstered and enhanced by essential municipal services.

The Committee urges each and every member of the Board to recognize the essential fairness of its recommendations, and to vote in favor of them, without deviation.

Reference to Committee.

Consideration of 1967 amendments to the Social Security Act which will reduce the amount of Federal funds for the California Aid to Families with Dependent Children Program.

Supervisor Francois stated that the Aid to Families with Dependent Children Freeze Component of the 1967 amendments to the Social Security Act includes a provision which states: "Federal financial participation will be available to states as of July 1, 1969, for children on Aid to Families with Dependent Children who are eligible for aid because of the continued absence of the father from the home only to the extent that the number of such children within the state as compared with the number on January 1, 1968, does not exceed the ratio of statewide population increase between those two dates for all children in the state under the age of 18."

Supervisor Francois said that this amendment in no way will cause any children in California to become ineligible for aid. The result will be only to reduce the amount of Federal funds in the Aid to Families with Dependent Children program and correspondingly increase the amount of state and county funds required. This would obviously increase the welfare burden on already overburdened counties. Legislation is pending in Congress to repeal this amendment and it would seem the Board of Supervisors would be well advised to explore the consequences of this legislation to San Francisco. Supervisor Francois requested referral to the appropriate committee.

SPECIAL ORDER—2:00 P.M.

Hearing Held.

Hearing of all persons interested in or objecting to the proposed vacation of a portion of Clay Street between Webster and Buchanan Streets.

File No. 208-64.

Mayor Joseph L. Alioto urged that the Board act favorably on the proposed street vacation on the theory that hospital facilities are very desperately needed in San Francisco.

Director of Planning Allan B. Jacobs summarized the action of the City Planning Commission as stated in Resolution No. 6349, a copy of which is contained in the file. Mr. Jacobs showed a drawing illustrating the conditions imposed by the City Planning Commission.

In response to a question by Supervisor Blake, Deputy City Attorney Kenealey stated that the developer must comply with the conditions set forth by the City Planning Commission; if he does not, a building permit can be denied him.

Mr. Robert E. Burns, President of Pacific Medical Center Board, University of the Pacific, urged approval. He stated the Board of Directors is willing to meet the terms laid down by the City Planning Commission.

Mr. Leonard Berger, attorney, called upon a resident of the area, who spoke in opposition to the proposal.

Mr. Berger requested—if a majority of the Board favors closing this portion of Clay Street—that the restrictions as set forth by the City Planning Commission be included in the ordinance ordering the street vacation.

Mr. William Gilmartin, representing the Pacific Heights Council, stated that the Council is now satisfied. He urged that the conditions prescribed by the City Planning Commission be included in the ordinance vacating the street.

There being no one else present desiring to speak, the Chair declared the hearing concluded.

Passage for Second Reading.

Ordering the vacation of a portion of Clay Street between Webster and Buchanan Streets.

File No. 208-64-2, Ordinance No.

Supervisor Blake, seconded by Supervisor Tamaras, moved "do pass."

Withdrawn.

Motions to Amend.

Supervisor Francois, seconded by Supervisor Mendelsohn, moved amendment by incorporating therein by reference the conditions set forth in City Planning Commission Resolution No. 6349.

In response to questions by Supervisor Morrison, Deputy City Attorney Kenealey advised that in his opinion, if such an amendment were made, the Director of Property could not transfer fee title to the street area until the conditions are fulfilled.

Supervisor Francois stated that it was not his intention to impose any conditions that would delay the street vacation. Since the City Attorney has indicated that real control over the building to be constructed lies in the conditional use permit granted by the City Planning Commission, Supervisor Francois stated he would withdraw his motion to amend.

Supervisor Morrison, seconded by Supervisor Mendelsohn, thereupon moved amendment to provide that any building permit granted for construction within the vacated street area will include those restrictions imposed by the City Planning Commission in its conditional use approval.

Supervisor Blake spoke in opposition to the motion stating that he felt such action would constitute harassment.

Supervisor Francois urged a "no" vote, saying that he had withdrawn his motion to amend because he had become aware of the possibility that such a condition might cause problems with the title company. Deputy City Attorney Kenealey agreed there is no way to guarantee how another attorney will construe language.

Supervisor Morrison thereupon withdrew his motion to amend.

Passed for second reading by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Final Passage.

There being no objection, at direction of the Chair, the following recommendation of Legislative and Personnel Committee, heretofore considered, was taken up out of order:

that the said schedules of compensation shall be effective beginning July 1, 1969.

File No. 270-69-1, Ordinance No. 83-69.

Finally passed by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Final Passage.

There being no objection, Supervisor Tamaras presented the following out of order:

Amending Ordinance No. 83-69, Salary Standardization Ordinance for employees subject to provisions of Charter Sections 151 and 151.1, effective July 1, 1969, by adding to the administrative provisions thereof a new Section VII (H), employees promoted from Municipal Railway Operator classes, and a new Section VII (I), calculation of value of fringe benefits for employees promoted from Municipal Railway Operator classes; an emergency ordinance.

File No. 270-69-2, Ordinance No. 84-69.

Supervisor Tamaras, seconded by Supervisor Francois, moved "do pass."

Mayor Joseph L. Alioto stated that he had had a series of meetings over the last few days with employee and City representatives, the object of which was to explore a method of attempting to cure the admitted existing inequity. The Mayor recommended that the subject amendments be approved.

STATEMENT OF SUPERVISOR TAMARAS RE SALARY STANDARDIZATION ORDINANCE:

I propose as amendments to the Administrative Provisions of the Salary Standardization Ordinance a new Section VII "H" and a new Section VII "I" that will serve to bring the promotional classifications in the transit operation series into line with the general policy of pay recognition in promotional appointments. As the Administrative Provisions now stand, all employees who are promoted receive the so-called "double jump" in the pay schedule over the pay they received in the lower class. Thus a railway inspector promoted from bus operator would receive the double jump over the base rate for bus operator. Section VII "H" would require that the pay in the promotional position of inspector be calculated not from the base rate for bus operator but from a rate that included the base rate *plus* the dollar value of the fringe benefits of the fund established for the bus operator. The Civil Service Commission would be given the authority to make the necessary calculations to establish the rates for promotive purposes and to adjust the pay of all of the employees in promotive ranks already appointed to such positions on July 1, 1969. This would insure that an operator promoting to a higher class would not receive less than he earned in his prior position. It is estimated that the cost of this proposal would be \$20,000.00.

Section VII "I" would recognize that the supervisory classes are entitled to the value of the vacation, retirement and health service

fringe benefits that are now paid into a fund for the operators. It is estimated that the cost of this proposal would be \$137,475.00.

These amendments do not affect the 5% increase in the schedules of compensation approved by this board in the Salary Standardization Ordinance. Again, this amendment would not change in any way the compensation schedules approved by this board in the Salary Standardization Ordinance. These amendments would recognize the fact that the base classes of operators in the railway do enjoy a fringe benefit that can be translated into dollar values, and that such benefit should be taken into consideration when an employee is promoted from the class of operator.

Finally passed by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

The Board thereupon resumed consideration of Calendar items in the order set forth therein.

Statement of Terry A. Francois Regarding Black-Jewish Relations

I would like to express my personal concern over, and disagreement with, statements made a few weeks ago by a national leader from the black community which statements have been construed as:

- 1) constituting an unfair, unwise and unwarranted attack upon the Jewish community;
- 2) epitomizing the kind of stereotyping to which black people have themselves been subjected, and which we have properly resented;
- 3) containing the potential for aggravating and increasing inter-group tensions in an already charged atmosphere pertaining in our society.

Further, I cannot agree with the maker of these statements that the sympathies and loyalties of black people are, or should be with the Arab nations in the Middle East conflict. The best information available suggests the contrary, based upon the substantial aid rendered by the Israeli government and its citizens to many of the developing African nations, and the long history of amicable, cooperative black-Jewish relations domestically. Such problems as may exist in that regard are not likely to be alleviated by adding our voice to that of the anti-Semites.

The situation is not likely to be improved either by the utterance of the kind of anti-Negro, intemperate remarks made recently by a local prominent attorney, who happens to be Jewish.

In any event, I did not feel that I personally, wanted those remarks to go unchallenged, nor do I consider them in the best interest of our community, its peace and well being.

Request Granted.

Supervisor Mailliard requested that a communication be sent to Mr. Gould, Publisher of the San Francisco Examiner, advising him that the Board has awarded certificates of commendation to the recipients of the Examiner's Distinguished Women award, so that he can make an appropriate announcement of the fact at the luncheon in their honor being held March 13, 1969.

In response to a question by the Chair, Samuel Duca, representing the Assessor, stated that work done on buildings to correct hazardous parapets or appendages would be considered as ordinary maintenance. In response to a question by Supervisor Boas, Mr. Duca advised that the Assessor is not authorized to make any deduction in assessed valuation of a building because of maintenance or correction costs.

Supervisors Boas and Tamaras said they favored the subject legislation because there is an existing hazardous situation badly in need of correction. However, they hoped that some consideration can be given to the granting of favorable tax treatment of persons who might be put to considerable expense thereby.

Supervisor Morrison called attention to the fact that it is the present policy of the Board of Supervisors that the Golden Gate Bridge and Highway District should be dissolved in 1971 when the bonds are paid off. He said he believed the prevailing feeling has changed a good deal since that policy statement was adopted. It is now conceded that the excess revenue attained from the bridge must be retained locally for development of one or more of the various forms of mass rapid transit now under consideration.

Supervisor Morrison requested that the Streets and Transportation Committee hold hearings to determine whether previous Board action calling for dissolution of the Golden Gate Bridge and Highway District should be rescinded and a new statement of policy issued.

Calling for establishment of policy relative to use of Recreation and Park Department open space for public rallies and assemblies.

Supervisor Pelosi called attention to the large rally held on the Marina Green last weekend as a protest against the extreme sentences being pronounced against prisoners in the stockade at the Presidio for disobeying an order. He stated that he had received protests from residents of the Marina because they had not been able to use the green for a few hours that day for ball playing or kiteflying.

Supervisor Pelosi requested that a communication be directed to the Recreation and Park Commission suggesting that the Commission consider the desirability of establishing policy relative to using open space for purposes of rallies and other public assemblies. Perhaps the Civic Center might be designated for such use, as is Hyde Park in London.

There being no objection, on motion of Supervisor Blake, seconded by Supervisor Mendelsohn, the following letter to the Editor by Supervisor Terry A. Francois, appearing in the San Francisco Chronicle of March 17, 1969, is made part of the record:

“Editor—The recent bombing incident which maimed and partially blinded young Tim Peebles is the latest sacrifice in the continuing crisis at San Francisco State College. This young man, according to his former teachers and fellow students, was quiet, unassuming, and well liked by his friends in East Palo Alto. He has met with a tragedy which will severely scar him in many ways for the rest of his life.

“It is to be hoped that the students will be shocked into bringing about a resolution of the issues involved—for it is only the students who can hopefully bring this whole crisis back into focus around the issues—not personalities.

“The issue is whether or not there will be a meaningful black studies department and whether education at the college level can prepare students to solve some of the explosive social problems which now exist in this society. This unfortunate incident is too high a price to pay. Violence has never solved anything and most differences are still hammered out around the conference table. This is as true of the war in Vietnam as it is of the war at San

Francisco State. Thoughtful citizens can only pray for peaceful solutions to both."

Caucus.

The Chair announced a caucus of the Board immediately following today's Board meeting to discuss internal office organization and to select members to tour transit facilities in other cities.

On being informed that the various law-enforcement agencies had not been notified of the committee hearing on subject legislation, Supervisor Ertola moved rereferral to committee for further hearings, with notice to all interested agencies. Motion lost for want of a second.

Supervisor Morrison stated that he has received a communication from Mr. Roger L. Williams, Chairman, School of Humanities, San Francisco State College, suggesting that, since the college has a number of bilingual and multilingual students, perhaps an arrangement could be worked out whereby the College could give credit to students who would act as interpreters for the City and County. Supervisor Morrison said that while he did not consider this a complete solution to the problem of the need for interpreters, it might be one means of achieving the goal of providing such services.

Supervisor Morrison requested that a communication be directed to the Mayor, suggesting that a representative of the Mayor get in touch with Mr. Williams to discuss his suggestion.

No objection and Clerk directed to comply.

Requesting information relative to San Francisco's obligations under the Raker Act to build a municipal electrical distribution system.

Supervisor Morrison called attention to a recent article in the San Francisco Bay Guardian dealing with the Raker Act, passed by Congress in 1913 entitled, "How PG & E Robs S.F. of Cheap Power." He said that this whole question has been the subject of debate in San Francisco for generations and is still a valid subject for discussion and debate.

Supervisor Morrison requested that a communication over his signature be directed to the City Attorney and the General Manager of Utilities, sending each a copy of the subject article, and asking the City Attorney what San Francisco's legal obligations are under the Raker Act to construct an electrical distribution system and asking the General Manager of Utilities what the economic benefits to San Francisco would be of such a municipal system.

No objection and Clerk directed to comply.

Requesting contributions for a new social services program for the Chinese community.

Supervisor Morrison referred to reports of the widespread celebration of the first transcontinental railroad link of the Central Pacific and Union Pacific Railroads that will culminate May 10, 1969, at Promontory Summit in the State of Utah. He said that the San Francisco Greater Chinatown Community Service Association has suggested that the Southern Pacific Company—as successor to Central Pacific—take this occasion to make a \$300,000 contribution toward implementation of new social service programs for the Chinese community in recognition of the work the Chinese did in building the railroad. In response to that suggestion, the Chairman of the Board of Directors of Southern Pacific Company has suggested that the problems of the Chinese community are challenges for the community as a whole and not for Southern Pacific alone.

Supervisor Morrison stated that, since Southern Pacific has not closed the door completely on their participation in such a program, he asks that the Clerk of the Board, over Supervisor Morrison's signature, write to the Chairman of the Board of Directors, Southern Pacific Company, proposing, as a compromise to the request of the San Francisco Greater Chinatown Community Service Association, that the State contribute \$200,000, San Francisco \$50,000, and Southern Pacific Company \$250,000 for a new social services program for the Chinese Community.

No objection and Clerk directed to comply.

Supervisor von Beroldingen, seconded by Supervisor Tamaras, moved that proposed ordinance be rereferred to Finance Committee for further hearing with reference to trainee program for Adult Probation Department.

After discussion, and testimony by John D. Kavanaugh, Chief Adult Probation Officer, it was determined that a satisfactory answer to objections which had been presented to the ordinance as submitted, would be to delete certain Adult Probation Officer positions to allow the Department to subsequently submit another appropriation request for the creation of trainee positions as a substitute.

Thereupon, Supervisor von Beroldingen withdrew her motion to rerefer, and seconded by Supervisor Francois, moved that the ordinance be amended as follows:

“Reduce the number of positions of 8430 Adult Probation Officer from 10 to 2; reduce the amount to be provided for permanent salaries from \$53,997.00 to \$34,917.00; reduce total amount of appropriation from \$75,005.00 to \$52,861.00, and the total number of positions created from 22 to 14.”

File No. 482-68-1, Ordinance No.

Mr. Robert Laughead, the City's rate consultant on the City Attorney's staff, having arrived in the Chamber, answered questions concerning factors taken into consideration in calculating recommended rate increases.

Supervisor Morrison, seconded by Supervisor Mendelsohn, moved that the matter be continued on calendar for one week to give the City Attorney's Office an opportunity to study the possibility of establishing differentials in taxicab rates, and to advise whether or not this might be done.

File No. 514-68, Ordinance No.

Supervisor Morrison, seconded by Supervisor Boas, moved that consideration be continued for one week, to give the Board members an opportunity to study the subject legislation.

Supervisor von Beroldingen explained that the City Attorney had advised the Finance Committee in order to make effective the revenue producing features of these ordinances they must be enacted before the Board of Permit Appeals took action on the issuance of additional taxicab permits.

Supervisor Morrison thereupon withdrew his first motion, and seconded by Supervisor Mendelsohn, moved that at the conclusion of today's business the Board of Supervisors recess its meeting until 8:00 p.m., Tuesday, April 8, 1969, to further consider this legislation at that time in light of information to be received as to the action by the Board of Permit Appeals.

After discussion, Supervisor Morrison withdrew his motion to recess until the next evening, and seconded by Supervisor Mendelsohn, moved that the Clerk be instructed to ask the Board of Permit Appeals, on behalf of the Board of Supervisors, to defer its action on the permits for one week.

Before a vote was taken on this motion, at the request of the Chair, the City Attorney advised that such an action would be violative of the provisions of Charter Section 22.

Thereupon Supervisor Morrison withdrew his pending motion, and seconded by Supervisor Boas, moved that consideration of the legislation be temporarily postponed and the Chief Assistant Clerk directed in the meantime to inquire of the Board of Permit Appeals as to whether or not they intended to act today on the matter of issuance of the permits, the purpose of inquiry being to resolve the problem of the Board of Supervisors, which might necessitate a special meeting being held.

Motion to amend adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Supervisor Mendelsohn urged a "no" vote on subject legislation. He said he felt the committee had done an excellent job under the circumstances but that he did not feel the circumstances should dictate to the Board in this situation. It would seem unfair to put new permits on the market at less than the market value of existing permits. On the other hand, raising the price of the permits would not work to get more cabs on the street. It would seem that imposing any charge gets the Board into a very murky area of market value versus no market value.

Adopted.

Making a finding of necessity for a tax subsidy in connection with proposed revision of Municipal Railway schedule of rates, fares and charges.

File No. 172-69-2, Resolution No. 302-69.

Supervisor Boas, seconded by Supervisor Francois, moved adoption.

Supervisor Boas stated he will support the recommendations of the Public Utilities Commission. The deficits of the system are such and the rate structure is so ancient that the Board must act to correct at least partially these growing deficits.

Supervisor von Beroldingen stated that she is convinced that an in-

crease in fares is indicated. The high real property tax rate is a tremendous burden to both the home owner and the tenant and must be kept from going any higher.

Supervisor Tamaras said he thought this modest increase a very wisely thought out recommendation which strikes a balance between the needs of the downtown area and what the riders can pay.

Supervisor Morrison said that if he thought an increase in fares would help the taxpayers, he would support the measure. However, any thorough study will indicate that an increase in fares will only add to the burden of the taxpayers. It is cheaper for the average home owner and renter to pay the Municipal Railway deficit through the tax rate than through added fares, because half the assessment roll covers the business community and they pay half of whatever deficit occurs.

Supervisor Mailliard stated that he will support this basic five-cent fare increase with the very strong request that when the transit service is improved and additional equipment is in service, the Public Utilities Commission recommend an additional five-cent increase. Supervisor Mailliard added that he favors special reduced fares for school children and the elderly but questions whether the Municipal Railway should assume this burden. The school district and Social Services Department should assume the responsibility of deciding who should receive a transportation subsidy.

Supervisor Blake said that he will vote in favor of the Commission's recommendations even though he does not feel this is the answer to San Francisco's transportation problems. He said the Public Utilities Commission should be broken up into separate departments of Airport, Water, and Municipal Railway.

The following from State and National Affairs Committee with recommendation "do not pass", heretofore considered, was taken up:

(Supervisor Mailliard dissenting in Committee.)

Supporting the repeal of minimum painting standards as contained in Section 17922 of the Health and Safety Code of the State of California.

File No. 193-69, Resolution No.

Supervisor Mailliard stated that he supports the proposed legislation because these standards in the Health and Safety Code would result in unenforceable standards being made mandatory in each city and county of the state. The only support for these standards is from the painting industry, and their desire for protection would best be placed in the Civil Code. If San Francisco is required to enforce these standards there will be a tremendous additional cost involved.

Supervisor Mendelsohn stated that the committee had heard no testimony sufficient to put San Francisco on record as opposing imposition of standards. The committee felt if these were the standards of the Veterans Administration and the Federal Housing Authority, they should be in use in San Francisco.

Superintendent of Building Inspection Goldberg urged adoption of the subject legislation. He stated that placement of these standards in the Health and Safety Code brings about the necessity of enforcement, which is not possible with present staff but would require at least double the present number of employees. Building officials throughout the state urge repeal of these standards. Since the real concern is how to act against the improper application of paint, the proper recourse would be to put these standards into the Civil Code under which—where a job is faulty—the consumer can go to a licensing board and bring a civil suit.

Refused adoption by the following vote:

Ayes: Supervisors Ertola, Gonzales, Mailliard, Pelosi—4.

Noes: Supervisors Blake, Boas, Francois, Mendelsohn, Morrison, Tamaras, von Beroldingen—7.

File No. 100-69.

BUDGET STATEMENT OF SUPERVISOR DOROTHY VON BEROLDINGEN ON BEHALF OF FINANCE COMMITTEE

The Finance Committee presents to the Board of Supervisors today the proposed budget of the City and County of San Francisco for the fiscal year 1969-1970.

Two itemized lists of Finance Committee recommendations, (1) budget, and (2) supplemental budget, have been furnished Board members. Those lists, together with the two volumes of the budget, and the looseleaf supplemental budget requests, constitute a comprehensive budget report.

This year, the taxpayers' plight is much more than ordinarily critical. The Finance Committee clearly recognizes the destructive impact of the inflationary trend, rising taxes, and unbridled demands for additional and more costly public assistance. The interests of the taxpayer, as contrasted with the interests of the tax consumer and the tax spender, require starkly realistic recognition, analysis and treatment. The San Francisco taxpayer and non-taxpayer, voter and non-voter alike, ought

to be aware of the precise reasons and necessity for increased local taxes, so that responsibility for them may be placed properly.

The Finance Committee, as briefly as possible without sacrificing factual essentials, and employing estimated figures where necessary, sets out below some statistical and explanatory material which hopefully will alert San Franciscans to a fuller understanding of the City's operational program and its attendant costs:

Total City Property Tax Support Included in Budget	\$210,982,100	*	*

*The amount of support for the annual budget from ad valorem taxes cannot be known or estimated prior to September, 1969, when the assessment roll together with surpluses, subventions, grants, and various revenue and expenditure adjustments can be ascertained with precision by the Controller.

Specific Items:

Some of the budgetary items of major or special interest merit brief comments concerning Finance Committee action:

All Departments:

Employments: Of 545 new positions recommended by the Mayor, the Committee recommended 179. New positions are those not heretofore created in the annual budget or supplemental appropriation ordinances. They do not include reclassifications of existing positions, nor do they reflect 785 positions in the San Francisco Unified School District over which the City and County has no jurisdiction. Major increases are:

Social Services	82
Police	27
Juvenile Court—	
Probation Office	19
S.F. General Hospital	14
Others	37
	<hr/>
Total	179

Maintenance and Repair of Automotive Equipment: All items reduced to amount budgeted in 1968-69.

Maintenance and Repair of Office Equipment: Reduced to or below amount budgeted in 1968-69.

Materials and Supplies: Totals reduced to or below amount budgeted in 1968-69.

Travel Expense: Reduced to or below amount budgeted in 1968-69.

Use of Employees' Cars: Reduced to or below amount budgeted in 1968-69. Bond Resolution 537-68 was considered by the Committee to be deferrable at this time.

Automobiles: All replacement and new vehicles eliminated unless absolutely essential to operation of department.

Equipment: In most departments all new equipment has been deleted, together with all replacement equipment where deferment will not halt performance of essential departmental service. In major departments, the total amount requested, covering hundreds of items, has been reduced to an amount equal to or less than last year's appropriation, with a caveat to department heads to establish priorities for replacement of most urgently needed items. Requested supplemental appropriations will not be entertained for items which could have been, but were not, purchased from the budgeted allowance. All equipment related to disallowed employments has been deleted.

New Programs or Services: Eliminated generally, except for those which will produce excess revenues to be reflected in reduction of the tax rate, or those necessary to qualify for subventions and the like, thereby minimizing the tax rate.

ART COMMISSION:

Neighborhood Arts Program and Supporting Services, allowed in the regular budget is \$23,000, the same as was appropriated in last year's budget. The Mayor recommended an additional amount of \$30,000 in the supplemental budget. The Committee has not recommended approval of that \$30,000 out of the property tax funds. However, it recognizes clearly the desirability of the program and has ascertained that the \$30,000 will be made available from the Publicity and Advertising Fund established for the purpose of promoting cultural events funded by the hotel tax. Thus a total of \$53,000 will be made available for Neighborhood Arts.

ADULT PROBATION DEPARTMENT:

The Adult Probation Officer has undertaken to review the possibility of double decking beds in the 930 Bryant Street dormitory so as to expand the work furlough program.

JUVENILE COURT—PROBATION OFFICE:

An item of \$8,400 has been included for rental of space to accommodate staff at locations outside the Youth Guidance Center. The Committee considers it essential that this department wherever possible decentralize its operations and establish staffed branch offices in various neighborhoods where the need for their services is greatest.

Additional employees approved in the supplemental budget requests are required to bring the probation staffing up to recommended California Youth Authority standards.

DISASTER COUNCIL AND CORPS:

In addition to certain specific reductions, the Committee has recommended that this department be funded only until December 31, 1969, when, pursuant to arrangements which the Mayor will be asked to conclude in the interim, the existing staffs of the Police Department and the Fire Department will absorb the entire operation. It is the

Committee's further recommendation that the volunteer structure and personnel of this department be retained by the new command.

FIRE DEPARTMENT:

Uniform allowance: The Committee recommends deletion of the \$150,000 submitted by the Mayor. It feels that neither the essential services of the department, nor its ability to recruit new members, nor the morale of the present force will be affected adversely by the deferment of an item which is desirable but which must yield to the decidedly more urgent requirement for deceleration of a runaway tax rate.

POLICE DEPARTMENT:

Uniform allowances: Deleted. For comment see "Fire Department" above.

Personnel: Request for 5 Sergeants to be promoted from Patrolman has been disapproved. The need for existing patrolman is greater, especially when the approximately 60 vacancies in the Patrolman force are considered.

SOCIAL SERVICES

The Committee has determined that the practice of transferring funds from categorical aids to other objects of expenditure is detrimental to the proper administration of welfare in San Francisco, and accordingly has directed that no such transfers be made in the absence of a re-appropriation by the Board of Supervisors.

The Committee has noted with approval the budgetary item of \$100,000 for the work incentive program, which carries a Federal and State participation of 92%. Eligible fathers under the AFDC category are referred to this training program, which has the extremely salutary objective of qualifying persons for employment in private industry, thereby reducing the number of persons on relief.

General assistance: This item is funded 100% from the local property tax, without State or Federal aid, and is in the nature of emergency relief for single, employable men and women, and others not eligible for aid to families with dependent children, the aged, the blind and the disabled. In 1964-65, \$1,635,000 was budgeted. In 1968-69, \$3,700,000 was budgeted. The Committee in the proposed budget has reduced the requested \$8,000,000 to \$3,700,000, as was budgeted in the current fiscal year.

Aid to families with dependent children: In the budget for 1968-69, \$24,200,000 was approved. For 1969-70, the department requested \$31,750,000. The Mayor approved \$30,400,000. Since this item involves a judgment as to possible future recipients, and a projection of growth in caseload which must be a subjective matter, as evinced by the variance between the Social Service Commission's estimate and that of the Mayor, the Committee recommends that \$25,500,000 be budgeted. That represents \$24,665,450, which is double the actual expenditures during the first half of the current fiscal year, plus \$834,550 or almost 3½%.

SHERIFF

New positions: Three new Deputy Sheriffs have been approved to

provide acutely needed security in the County Jail. Other new positions have been disapproved.

SUPERIOR COURT

One existing, but unfilled position of Assistant Secretary-Jury Commissioner has been deleted.

BOARD OF SUPERVISORS

The Committee has submitted to the Board, as items included in the approved supplemental budget, those appropriations for Administrative Assistants to the Board members and related materials and supplies. However, the Committee does so without recommendation.

CALIFORNIA ACADEMY OF SCIENCES:

The reconstruction and replacement item of \$46,000 for relocation and resetting of the Francis Scott Key monument has been deleted, with the request that the Academy and the Recreation and Park Commission resolve their current dispute concerning liability for provision of funds, with a report thereon to be submitted to the Finance Committee.

The Committee will request the City Attorney to prepare a Charter amendment to remove any restrictions against charging an admission fee to these facilities, with the proviso that children and residents of San Francisco are to be admitted free, with all others to pay an admission charge.

PUBLIC DEFENDER:

Mr. Nicco, representing the Public Defender, advised that his office would attempt to interest neighboring counties in a reciprocal agreement for furnishing counsel in cases involving conflict because of multiple defendants.

REGISTRAR OF VOTERS:

Election workers: Wages of Judges of Elections have been increased from \$17 to \$19 per day, and Inspectors of Elections from \$20 to \$22, in an attempt to recruit adequate staff to insure proper conduct of elections.

Rental of Polling Places: Reduced from \$34,720 to \$30,000 with request that department utilize more public rather than private polling places.

REAL ESTATE—CIVIC AUDITORIUM AND BROOKS HALL:

The Committee will request the City Attorney to advise what recourse, if any, the City has against the electrical contractor who allegedly installed metallic cables in the exhibit area contrary to the terms of the contract, which called for rubber protected cables. A budget item of \$2,500 is necessary for replacement of inadequate cables this year, with additional replacements anticipated for the next ten years.

PUBLIC WORKS—BUILDING REPAIR:

With respect to miscellaneous maintenance and repair jobs under \$5,000, the Committee adopted a uniform policy of rejecting increases

over current fiscal year budget allowances, and rejecting any new projects.

PUBLIC WORKS—BUILDING INSPECTION:

Four positions associated with inspection duties have been deleted and may be reconsidered in the future upon resolution of a dispute between management and unions concerning type of duties involved.

PUBLIC WORKS—ENGINEERING:

The Committee has submitted to the Board without recommendation a supplemental budget item of \$9,865 for rental of quarters at 507 Polk Street to house personnel assigned to Recreation and Park Engineering, who are to be removed from the City Hall in order to make suitable rooms available to the second floor Press Corps and the Board of Supervisors Administrative Assistants.

PUBLIC WORKS—SEWER REPAIR:

A \$65,000 item for maintenance and repair of side sewers has been proposed as a new service. It has been and is now paid for by property owners. The Committee feels strongly that new items involving substantial expenditures of property tax funds should not be approved at this time.

PUBLIC WORKS—STREET CLEANING:

The total budget recommended for this division by the Mayor was \$4,029,999. The Committee has directed that \$2,079,400 be transferred from the Road Fund to this division. Thus, reducing the property tax rate by about 10½c in addition to other reductions recommended.

PUBLIC WORKS—CAPITAL IMPROVEMENTS:

Of \$1,287,700 requested, the Committee recommends approval of a total of \$497,100.

A supplemental item of \$296,400 has been included for streetside landscaping in various locations. Since 1964-65, the total sum of \$1,776,230 has been appropriated for street tree planting, landscaping and irrigation system installations. The Board in July of last year declared a policy of appropriating \$300,000 annually for a ten-year period to fund an urban beautification program. This budget item in question was requested in substantial compliance with the Board's policy. However, the Committee feels that since \$167,400 is included in the Road Fund Construction budget this year on streetside landscaping, and in view of the considerable sums heretofore expended, the additional amount of \$296,400 ought to be deferred at this time of crisis for the property taxpayer, and the Committee has not recommended its inclusion in the approved supplemental budget requests.

A requested supplemental item of classroom additions to four boys' cottages at Juvenile Hall has been recommended for reduction from \$99,700 to \$20,000. The Committee was informed that in lieu of constructing permanent additions at the requested figure, suitable partitioning of presently available space can be accomplished in an adequate fashion at the much lower figure recommended.

PUBLIC HEALTH:

This budget, including supplemental requests came to us with a total of \$59,679,479, an increase of \$16,912,650 over 1968-69. Positions approved by the Mayor totalled 4,024, an increase of 339.

The Committee recommends a total of \$56,333,247 or a reduction, from the Mayor's submittal, of \$3,346,232. Of the 4,024 new positions before us, the Committee recommends approval of \$3,747, a reduction of 277, approving only 62 of the 339 submitted. In general, the medical, nursing and technical personnel were accorded priority over clerical and administrative.

The Committee has adopted a policy of requiring a showing of absolute necessity for new employments in this department, even though it may be indicated that related projects are to be the subject of state subventions. The Committee is apprehensive that if all requested positions were to be granted, in the future supporting subventions from the State or Federal government might be discontinued and the City be required to assume full costs of operation, as has occurred at times in the past.

Administration: A new item of \$6,600 has been approved for Canon Kip Clinic. It provides a needed service for the underprivileged in the South of Market area, which otherwise would have to be furnished by City personnel and facilities.

San Francisco General Hospital: Blood: \$150,000 is the total of anticipated expenditures during 1968-69. The Committee recommends approval of \$175,000 for 1969-70, with the request that the Department of Public Health sponsor a blood drive among City employees and others which, at a value of \$20.00 per pint, will substantially reduce the amount of money required.

Community Mental Health Services: This division's budget has evolved from an expenditure of \$3,382,154 in 1967-68, to a 1968-69 total budget of \$4,339,560, to a requested 1969-70 total budget, exclusive of supplementals, of \$16,984,772. Although State support is approximately 90% on most items, the growing demand on City property taxes is obvious.

New jobs aggregating 207 were requested by the Department, of which the Mayor approved 189, and of which the Committee has recommended 46.

The Alcoholism Bureau has been transferred from the Department of Public Health, Administration Division, to the Community Mental Health Services, to take advantage of the greater State subvention. The C.M.H.S. submitted a budget of \$1,052,056 for the alcoholism program. This compares with \$10,082 actually spent in 1967-68 and \$47,459 budgeted for 1968-69. While the program is worthwhile, the taxpayers cannot afford it at this time. The same staff of three employees which has served this year is recommended for next.

DE YOUNG MUSEUM:

The Committee has attempted to make some reasonable adjustments in amounts requested for the Brundage Collection of Oriental Arts, but was restrained in large measure by the City's commitments in relation to its acceptance of the gift. The Controller reports that the

total amount expended by the City on the collection, beginning with the bond fund approved by the voters in 1960, is \$4,137,816.

PUBLIC LIBRARY:

Leased books have been increased from \$68,500 in 1968-69 to \$75,316; subscriptions from \$64,500 to \$72,000; library and reference books from probable actual expenditures of \$689,500 during 1968-69 to \$725,000.

HOTEL ROOM TAX FUND:

The Committee has had drafted and will introduce for reference to committee and public hearing, a proposed ordinance which, if enacted, will transfer to the General Fund as of June 30, 1969, one-half of all funds heretofore allocated and set aside for the Sports Arena Convention Center in the Yerba Buena Redevelopment Area; and further, transfer to the General Fund as of June 30, 1970, one-half of the moneys specifically allocated and set aside for the Center during the fiscal year 1969-70 ending that date. As a consequence, approximately \$1,400,000 will be diverted to the General Fund without jeopardizing plans for the Convention Center, and thus will reduce the property tax rate in the fiscal years mentioned.

PUBLICITY AND ADVERTISING FUND:

These moneys, derived from the Hotel Tax, are estimated to total \$3,400,000.

RECREATION AND PARK:

Golf courses: Four new positions are recommended, at a total cost of \$25,587. It is anticipated that they will produce additional revenue in an amount to more than offset the cost, in addition to providing much-needed service.

Candlestick Park: The Committee has approved an item of \$36,000 for promotional services. This was requested by the Chamber of Commerce in 1967 and has the additional endorsements of the Down Town Association and other major representatives of taxpayer interests such as the Civic League of Improvement Clubs and Associations. The item was necessarily deferred in 1967 and 1968 pending a decision to proceed with the Candlestick Expansion Project. With the multi-million dollar planned expansion program, it is essential to make provision for production of substantial additional use of the stadium and the increased revenue therefrom. No other major stadium in the country lacks such service, which is not only revenue producing but is essential in the highly competitive field of attracting events and visitors. It is imperative that the contractor with whom the Recreation and Park Commission will enter into an agreement commence services at the earliest possible date in order to obtain commitments for next year's rentals early enough to avoid loss to competitors. The consummation of the contract will be dependent upon a final decision to proceed with the expansion project, final plans and figures for which are currently being drafted by the architects; the Commission in preparing the agreement undoubtedly will include a proviso for termination in the event of project abandonment.

Recreation for the Handicapped: The Committee recommends an appropriation of \$125,000 for this special service, which is housed in

the Fleishhacker Pool Building. An additional item was requested in the amount of \$175,000 as the City's contribution toward construction of a new facility on park lands at a total cost of \$525,000. A majority of the Committee feels that the present facility can serve adequately for the time being, and that deferment at this time of tax crisis is in order, despite Board Resolution No. 610-68 adopted last September when the entire context and implications of the Annual Budget were not before the Board.

Zoo: The Committee has suggested that the Commission consider charging an entrance fee to the zoo with possibly two alternatives, one at a higher level to assure maintenance of one of the world's finest zoos, and a lower level which would take into account the desirability of making the facilities available to a broad spectrum of economic classes. President Shorenstein stated he will reopen the entire matter before the Commission.

Bayview-Hunters Point Recreation and Park Facilities: The Recreation and Park Commission is planning development of new recreation and park facilities in the Bayview-Hunters Point area. The total estimated cost of the project is \$2,285,000. An item of \$20,000 is allowed in the budget before you for planning the Bayview-Hunters Point recreation center. However, a proposed item of \$230,000 for purchase of land has been recommended for deletion by a majority of the Finance Committee. The Recreation and Park Department has informed the Committee that it is currently formulating a multi-purpose bond issue and the Committee majority believes that land acquisition and construction of the recreation center should be included in the proposed bond issue. The Board to date has not been advised of plans for the completion of the recreation and park area, and the Committee majority recommends the foregoing action, predicated on the lack of information together with the premise that it is difficult to conceive that the Board would be asked to fund the project by including in the budget \$1,000,000 per year for the next two years, out of the property tax rate.

SAN FRANCISCO UNIFIED SCHOOL DISTRICT:

At this time, the Board of Education reports that its proposed annual budget totals \$113,873,628, an increase of \$15,938,885, including 7,393 positions, an increase of 768. The City and County, specifically the Mayor and the Supervisors, has no control over this budget.

ROAD FUND—STREET PLANTING:

The total budget for this division is \$422,803.

ROAD FUND—CONSTRUCTION:

The Committee has transferred the sum of \$1,979,400 to the credit of the Street Cleaning Division, Department of Public Works. In addition, the Committee has deleted from the \$100,000 previously transferred from the Road Fund to the Street Cleaning budget, the amount of \$90,500, thus making a total of \$2,079,400 which will be used to reduce the tax rate.

EMPLOYEES RETIREMENT SYSTEM:

Total retirement allowances, exclusive of supplemental requirements, because of voters' approvals are \$36,779,207, an increase of \$16,777,954.

HEALTH SERVICE SYSTEM:

Mandatory City allowance for medical plans totals \$8,124,000, an increase of \$2,024,042.

MUNICIPAL RAILWAY:

An item of \$2,913,000 for replacement of rolling stock has been approved.

SAN FRANCISCO PORT COMMISSION:

1969-70 will mark the first full year of the Port Commission's operation under the City and County of San Francisco rather than the State of California. The Port Commission's operations are largely an unknown quantity insofar as relativity to established City and County departments is concerned. The Committee believes that further review of and added familiarity with the Port Commission's functions during the fiscal year will better establish firm bases upon which to gauge adequate budget allowances. Therefore, the Committee has recommended only those additions or deletions which appear on the accompanying supplemental budget list.

It is particularly noted, however, that the budget requests of the Port Commission for operations, equipment, capital improvements and bonded indebtedness total approximately \$15 million, while the estimate of revenues other than taxes for 1969-70 total \$11,800,000, thus requiring the expenditure of approximately \$3,200,000 out of the Commission's surplus fund of \$8,800,000. The Port has explained the foregoing as being occasioned by extraordinary expenditures for capital improvements. Nevertheless the Committee has observed that the perpetuation of such practice may in a relatively short time require property tax support for the Port Commission's operations.

ADMINISTRATIVE PROVISIONS, ANNUAL SALARY ORDINANCE:

The Civil Service Commission has proposed an amendment to Section 1.34, Maximum Rate For Part-Time Service, to read as follows: "The maximum rate effective July 1, 1969, for part-time services shall not exceed \$221 per month, including the value of any allowances." The current rate is \$210. The change in rate is required by Charter Section 142. The Finance Committee concurs with the Commission's proposal.

The Controller has furnished cost data relative to charges levied for accommodations, services and facilities furnished to employees in the various departments. As reflected in Section 1.35 of the ordinance, no changes of 1968-69 charges are recommended except as follows: (1) O'Shaughnessy Guest Cottage, rate per person per day, from \$18.00 to \$24.00; (2) Meals at Hetch Hetchy Project boarding house, rate per day, from \$3.75 to \$4.25.

Last year, the Finance Committee was asked to review the desirability of increasing the per diem travel allowance from \$20.00 to \$30.00. The Committee, in view of other budgetary requirements, does not deem it advisable to recommend such a change at this time, although it recognizes the inadequacy of the present allowance.

**ADMINISTRATIVE PROVISIONS—ANNUAL
APPROPRIATION ORDINANCE:**

The Controller has recommended two amendments. One will renew authorization for the practice of making compensation reserve funds for lump sum payment to police officers upon death or retirement for accumulated sick leave benefits. The other provides that Federal funds received for Municipal Railway equipment is appropriated for such purpose and shall be disbursed by the Railway's non-profit corporation.

The Finance Committee concurs in recommending the two amendments.

ASSESSMENT ROLL:

The Finance Committee and other members of the Board are aware of the Assessment Roll's vital impact upon the tax rate, and, more to today's point, its paramount role in effecting an equitable distribution of the tax burden as between property which is residential (one-family, essentially non-revenue-producing) and commercial (revenue-producing).

It has been reported that at about the time A.B. 80 required the Assessor to assess all taxable property at a uniform percentage (in San Francisco, 25%) of his estimate of full cash value, numerous large commercial buildings experienced a substantial reduction in estimated full cash value.

It appears to the Committee that there is a possibility that an immediate re-appraisal of major commercial properties might result in a determination of substantially greater full cash value, thus producing a greater proportion of the property tax from commercial properties and conversely reducing the proportion to be paid by the single-family homeowner.

The Committee submits this matter to the Assessor for consideration or further consideration, as the case may be.

ACKNOWLEDGMENTS:

The Finance Committee commends and thanks Controller Nathan B. Cooper, his budget assistants, David Fong and Daniel McDonagh, and their staff for their valued assistance.

BOARD ACTION:

In order that all the members of the Board may have an opportunity to consider in complete detail the Committee's recommended changes in relation to the entire budget, the Committee has completed its review of the budget as much before adoption as was possible in view of the numerous meetings required. The Charter provides that the Board shall adopt the budget not earlier than May 15. The Budgetary Procedure Ordinance declares that the budget may not be adopted later than May 19.

On the date to be selected by the Board, not later than May 19, I will move that the budget, as amended by the Board, be adopted.

CONCLUSION:

The members of the Finance Committee (my colleagues are Super-

visor Francois and Supervisor Tamaras) submit their recommendations to the Board with unanimity and without recordation of the very few informal dissents which were expressed in Committee sessions.

Every member of the Board was cordially invited to attend any or all of the Finance Committee's departmental hearings and executive sessions, and to favor the Committee with any suggestions he might have to offer. The Committee welcomed those who found it possible to attend, and the comments of all who submitted them. The Committee's recommendations for amendment reflect full acceptance of such suggestions, and the absence of others encourages the members of the Committee to believe that the budget as recommended will have the unanimous support of their colleagues.

Finance Committee

Motion refused adoption by the following vote:

Ayes: Supervisors Blake, Morrison—2.

Noes: Supervisors Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Pelosi, Tamaras, von Beroldingen—9.

Supervisor Morrison asked detailed questions relative to recommendations of the Finance Committee. In response to his questions, the General Manager, Department of Social Services, the Director of Finance and Records, Director of Public Works, representatives of the Civil Service Commission, and the Public Defender stated the effect budget cuts will have on their departments.

Supervisor Morrison stated that in his opinion the Board is asking for trouble by adopting an unrealistic budget for the **Department of Social Services**. He added that the City will somehow have to find additional money for the department during the year; it is quite clear from the testimony that the City may be in serious trouble on this issue.

Supervisor Morrison, seconded by Supervisor Blake, moved to amend the proposed Finance Committee amendments to the proposed annual budget by changing the items for the Department of Social Services to read as follows:

<i>Page</i>	<i>Line</i>	<i>Item</i>	<i>From</i>	<i>To</i>
230	13	Aid to Families with Depend. Children	30,400,000	27,000,000

Motion refused adoption by the following vote:

Ayes: Supervisors Blake, Morrison—2.

Correction of Finance Committee recommendations.

Supervisor Francois corrected his previous announcement of a correction of Finance Committee recommendations for the **Department of Social Services** as follows:

<i>Page</i>	<i>Line</i>	<i>Item</i>	<i>From</i>	<i>To</i>
221	4	Social Worker (25-23)	205,800	188,291
222	16	Community Worker (5-3)	27,180	16,308

Supervisor Morrison presented a communication from Mayor Alioto, dated May 19, 1969, reading as follows:

“I have just been informed by representatives of the **Juvenile Probation Officers** that you have stated that I presented to you the request for eleven additional Probation Officers and two Clerks as an alternate to the major budget. This is not the fact. It was presented as a supplemental budget because of the timing of events, and would have been included in the original budget if the timing of events had been different. I wish to make it clear that the supplemental and the original budget ought to be read as one, and that the supplement is deemed to be a part of the original budget.

“Mr. Mootz informs me that this is the actual legal situation. I would also state that I am still strongly of the belief that the eleven Probation Officers and two Clerks are justified on the merits.”

Supervisor von Beroldingen stated that the Mayor had not been quoted by members of the Finance Committee but that she had read the department's own statement of explanation in the supplemental budget.

Miss Rose McGrorey, Acting Chief Probation Officer, Juvenile Court, urged approval of the department's supplemental budget as recommended by the Mayor, which would provide for employment of 9 Probation Officers, 2 Supervising Probation Officers, and 2 Clerk Typists, and necessary office furniture. She stated that of these positions, 6 probation officers, 1 Supervising Probation Officer, and 2 Clerk Typists would be assigned to a special supervision unit eligible for State subsidy based on intensive supervision at home in lieu of commitment to Youth Authority detention facilities.

Motions to Amend.

Supervisor Morrison, seconded by Supervisor Blake, moved that the proposed annual budget be amended by including therein items for the **Juvenile Court, Probation Office**, as follows, appearing on the department's supplemental budget request:

Adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailiard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Motion for adoption of the annual budget as amended.

Supervisor von Beroldingen, seconded by Supervisor Francois, moved that the annual budget be adopted, as amended by the Board of Supervisors; that the Controller be instructed to prepare the Annual Appropriation Ordinance to reflect said budget; that the Civil Service Commission be instructed to prepare the Annual Salary Ordinance in conformity with said budget and the 1969 Salary Standardization Ordinances heretofore enacted, to reflect the positions continued or created by the Board of Supervisors in the adoption of said budget; and that the Annual Appropriation Ordinance and the Annual Salary Ordinance be transmitted to the Board of Supervisors not later than Thursday, May 22, 1969.

Supervisor von Beroldingen stated that, to the extent the budget has been amended with respect to the Department of Public Health, she cannot cast an approving vote, since she does not feel that San Francisco can afford the luxury of new programs—however meritorious and however much her personal sympathies encourage and support those programs. She said that this year the Board must walk slowly and wait to see what reappraisal of downtown properties and new sources of revenue will bring to San Francisco and what effect they will have on the tax rate.

Supervisor Tamaras stated that he agreed with Supervisor von Beroldingen. He, also, cannot support the budget as amended.

In response to a question by Supervisor Boas, Deputy City Attorney Stark advised that the City Attorney has consistently interpreted Section 72 of the Charter as requiring unanimous vote of approval of the budget. Each Supervisor has had the opportunity to express himself and challenge individual items and record his opposition; but at the point of adopting a budget, upon which operation of the City and County depends, each member is under a mandate to vote for the budget.

Supervisor Blake stated that he opposes the methods used in adopting the budget and intends to vote against it as he has in past years. He stated that he has tried over past years to change this horse and buggy method of adopting a budget. Supervisor Blake said he was sure the Board was under-budgeting and that many departments would have

to come before the Board during the year to request supplemental appropriations. This is not the proper way to operate. Until the Board of Supervisors has a budget analysis staff, the people of San Francisco have a right to protest.

Supervisor von Beroldingen said that—without altering her views or convictions—solely because it is a mandate of the law, she will accede to the advice of the City Attorney and vote to adopt the budget as amended, with the hope that Supervisors Blake and Tamaras will do likewise.

Adopted. (See infra for rescission.)

ROLL CALL FOR THE INTRODUCTION OF MEASURES AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Request Granted.

Disposal of garbage by compression and dumping at sea.

Supervisor Blake called attention to the fact that as far back as October, 1965, he had advocated that San Francisco's garbage be compressed into blocks, towed out to sea, and dumped. At that time City officials had not been interested and recently have begun negotiations for the hauling of garbage to dump sites in Lassen County.

Supervisor Blake presented a copy of a newspaper article dated May 14, 1969, about a test conducted by the Material Disposal Corporation in which compressed cubes of garbage hauled here from Milwaukee were dumped into the Bay. He requested that a communication be directed to the Chief Administrative Officer and Director of Public Works, asking whether any consideration has been given to this method of garbage disposal, particularly in view of the fact that it may be less expensive than the railhaul to Lassen County and in view of the fact that Federal funds are available to finance experimentation in this field.

No objection and Clerk directed to comply.

Reference to Committee.

Commending Leo Musso.

File No. 6-69.

Supervisor Blake moved that the Board's commendations be extended to Leo Musso for his forthright stand against pornography.

Referred to Cultural Activities Committee.

Request Granted.

Requesting greater use of public buildings as polling places.

Supervisor Boas stated that the Finance Committee had recommended that wages of polling place inspectors and judges be increased

and that public polling places be found to replace private polling places. He said that in other cities there is no charge to the Registrar of Voters for the use of public buildings as polling places, and he saw no reason why the same could not be done in San Francisco.

Supervisor Boas requested that a communication be directed to the Registrar of Voters and the San Francisco Unified School District, asking them to study jointly and report to the Board whether by combining precincts and using public buildings such as schools, libraries, recreation centers, etc. the need for private polling places can be greatly reduced. At the suggestion of Supervisor Francois, Supervisor Boas added the request that consideration be given to informing voters when precincts are consolidated.

No objection and request granted.

Later on roll call, Supervisor Morrison stated that in his opinion there is nothing inherently good or bad about public versus private polling places. The important thing is the convenience of the voter. Board action today in cutting the appropriation for polling places will result in consolidation of polling places and will mean that fewer people will vote in November because it will be more difficult. Today's action was hasty and ill-conceived.

Request Granted.

Requesting report on plans for development of Public Utility Commission lands.

Supervisor Mendelsohn called attention to recent statements in the public press which called in question procedures used by the Public Utilities Commission in management of lands under the Commission's jurisdiction.

Supervisor Mendelsohn added that, since the Commission has just hired an assistant director for real estate development, this seems a good time to inquire as to plans for the future. He asked that a communication be directed to the General Manager of Utilities, asking

that the Board of Supervisors be kept informed as plans are formulated for development of Utility lands to their highest and best economic use for the citizens of San Francisco.

No objection and Clerk directed to comply.

Consideration of bills pending before the State Legislature.

Supervisor Pelosi requested that the following bills pending before the State Legislature be referred to committee: AB 311, provision of housing information service by redevelopment agency and housing authority; SB 1008, changing time of closing of polling places in San Francisco from 8:00 p.m. to 7:00 p.m.

Referred to State and National Affairs Committee.

Operation of retail gunshops in residential districts.

Supervisor Pelosi stated that it has come to his attention that an applicant recently requested a permit to operate a gun shop in a residential neighborhood. There was little, if any, public notice given, and it was only by accident that some residents learned of the application and were able to be present to protest the granting of the permit. The permit was denied.

Supervisor Pelosi stated that the code amendments as stated hereinabove would require due public notice to be given prior to the granting of a permit for any store which deals in guns of any kind. He requested committee consideration of the proposed amendment.

Referred to Fire, Safety and Police Committee.

Endorsing proposed conversion of Naval Radiological Defense Laboratory at Hunters Point into a new federal research laboratory.

(May 19, 1969—Consideration continued to May 26, 1969.)

Supervisors von Beroldingen and Francois presented the Committee recommendation.

M. Justin Herman, Executive Director of the Redevelopment Agency, discussed subject legislation only as it relates to Hunters Point Redevelopment Project Area. He stated that the only way San Francisco can get substantial Federal financing is for the City to contribute Housing Authority lands within the project area to the project.

Eneas Kane, Executive Director of the Housing Authority, presented the Authority's position. He stated that the Authority wishes the Wisconsin site excluded from the agreement for transfer and wishes a written guarantee that the Housing Authority will be compensated for its out-of-pocket expenses which have developed as a result of operation of the projects, including delinquent rents.

Refused Adoption.

Motion to Amend.

Supervisor von Beroldingen, seconded by Supervisor Morrison, moved amendment as follows: Page 2, Line 9, ADD a new paragraph reading :“FURTHER RESOLVED, That the City and County of San Francisco shall reimburse the Housing Authority of the City and County of San Francisco for its out-of-pocket expenses as provided in the agreement of January 29, 1954, in such amount as a court of competent jurisdiction may determine by final judgment to be just and equitable with reference to the aforesaid property, subject to budgetary and fiscal provisions of the Charter; and be it”.

Supervisor von Beroldingen indicated that upon consideration of the succeeding Calendar item she planned to move amendment of the proposed agreement by inserting the same wording therein.

Reference to Committee.

Provision of adequate classrooms at the Youth Guidance Center.

Mr. Charles R. Greenstone, Sr., Juvenile Justice Commissioner, called attention to the fact that the budget request of the Youth Guidance Center for \$99,700 for classroom additions had been cut by the Board of Supervisors to \$20,000. He referred to a communication from the Associate Superintendent of School Operational Services dated May 21, 1969, advising that \$20,000 would not be adequate to provide the kind of classroom space that would be needed for the School District to continue the program of education at Youth Guidance Center.

Mr. Greenstone stated that the City Attorney has advised that under the Welfare and Institutions Code, the Board of Supervisors is under a mandate to establish and maintain facilities at Juvenile Hall for the proper education of children in the custody of the Youth Guidance Center.

Supervisor Francois, joined by Supervisor von Beroldingen, asked that the City Attorney give the Board an interpretation of Welfare and Institution Code sections dealing with establishment and maintenance of schools at the Youth Guidance Center: who decides the adequacy of grounds and buildings for school facilities and why school costs should not be paid by the San Francisco Unified School District.

Called Out of Committee.

Call Withdrawn.

Supervisor Blake announced that he was calling out of Streets and Transportation Committee File No. 247-69, proposed resolution approving and urging construction of Crosstown Vehicular Tunnel as

a link in the San Francisco interstate highway system, and directed that the Clerk calendar the matter for full public hearing at the Board meeting of June 23, 1969.

When advised by the Chair that the rules of the Board require that a matter called from committee by a member be placed on the Board calendar for the next following meeting and that the matter will not be open for public discussion without unanimous consent of members present, Supervisor Blake withdrew his call and stated he would make it again on June 16, 1969.

Calling for investigation of assessments of real property in the financial, commercial, and downtown areas.

Supervisor Boas stated that there has been much comment recently about whether or not real property in the financial, commercial, and downtown areas are under-assessed. He said he had an employee who was admittedly not an expert make a random check of recent sales in the downtown area. The result of such check was as follows:

<i>Location</i>	<i>Full Cash Value</i>	<i>Sale Price</i>
55 New Montgomery	\$362,500	\$ 457,000
655 Sutter	132,400	506,500
332-340 Pine	279,625	995,000
501 Market	455,000	540,000
509 Market	970,000	1,800,000
505 Market	158,000	600,000

Supervisor Boas, seconded by Supervisor Francois, moved as follows: That the Real Estate Department be asked to check properties about which they have knowledge, as how the purchase prices compared with assessed valuation, for instance, properties acquired for Clay and Washington Street widening and for extension of Fifth Street; that the Real Estate Department and Redevelopment Agency be asked to report to the Board on a spot check basis purchases made in the South of Market area, comparing purchase price and assessed valuation; that the State Board of Equalization be apprized of these findings and asked whether or not in their opinion the properties are properly assessed.

Motion adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailiard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Supervisor Blake suggested that the Clerk might check sales over the last twelve months to compare sale price with assessed valuation. The Chair directed that the Clerk investigate the feasibility of making such a check.

Proposed purchase of Alcatraz Island by the City and County.

Supervisor Boas stated that he understands the proposed purchase of Alcatraz Island by the City and County will within a few weeks come to the Board of Supervisors, acting as a Surplus Property Authority, for decision. He said that sixty-three percent of persons answering a questionnaire which he had distributed favored purchase of Alcatraz Island. Supervisor Boas expressed the hope that the special committee

created to consider this question will hold public hearings so that a plan for use of the island can be developed and the City not be placed in the position of possibly buying a white elephant.

The Chair advised that he has been in contact with the Chief Administrative Officer, the Director of Planning and interested citizens on this matter. The Director of Planning has indicated that he will soon be in a position to make recommendations relative to purchase and use of the island and had suggested that the surplus Property Authority might wish to schedule an evening hearing for receipt of such recommendations and also might wish to consider advertising nationally in order to bring the highest type of investors into development of the island. The Chair indicated he will in the near future make arrangements for setting a date for the Surplus Property Authority to meet.

Determining the feasibility of developing and installing a planning-programming-budgeting system for the City and County.

File No. 345-69.

Supervisor Pelosi stated that the time has come for the Board of Supervisors to face the problem of the inadequacy of the present budgeting procedures. Total reform is necessary.

Supervisor Pelosi proposed the development and installation of a planning-programming-budgeting system, which is a continuous budgetary process requiring (a) the statement of goals in response to the needs of the people, (b) consideration of alternative methods for achieving these objectives, and (c) the making of decisions based upon the costs and effectiveness of the alternatives available.

Supervisor Pelosi asked that the Board conduct hearings regarding this plan in an existing committee or, preferably, in a special committee appointed for this purpose.

Referred to Rules Committee.

Requesting additional vocational training of welders by San Francisco Unified School District.

Supervisor Tamaras stated that it has come to his attention that one of the local unions, Bricklayers Union No. 7, has requested the Board of Education to increase facilities at John O'Connell High School and to permit the school to remain open during the summer vacation period in order to train welders, but the Board of Education has responded that they do not have adequate space for such a program. The Bricklayers Union has need now for 500 welders and can guarantee jobs for those who complete a proper welding instruction program.

Supervisor Tamaras said that most of the problems facing urban communities today stem from lack of employment. In San Francisco, blue collar jobs are growing more scarce all the time. Supervisor Tamaras stated he felt the School Department should do more than it has to try to alleviate this problem.

Supervisor Tamaras requested that a communication be directed to

the Mayor, asking that he request the School Department to enlarge facilities at the John O'Connell High School and possibly at other schools, to train welders qualified to fill these existing job vacancies.

No objection and Clerk directed to comply.

Effect of AB 715 pending before the State Legislature, which would repeal the imposition of painting standards.

Supervisor von Beroldingen called attention to recent unfortunate publicity relative to Board action in refusing to adopt legislation endorsing AB 715, which would repeal the imposition of painting standards. Chief Administrative Officer Mellon explained the statements of the Superintendent of the Bureau of Building Inspection.

ROLL CALL FOR THE INTRODUCTION OF MEASURES AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Reference to Committee.

Report of tour to study transit facilities between other major cities and their airports and request for recommendations.

Supervisor Boas presented to the Board a report on the trip taken by him, Supervisor Francois, Supervisor Mailliard, Director of Planning, and Director of Utilities to view transit facilities between other major United States cities and their airports. Later on roll call, Supervisor Francois and Supervisor Mailliard expressed their concurrence in the conclusions and recommendations of Supervisor Boas.

Supervisor Boas said that the trip had verified his initial feeling that the congestion at the airport is going to get worse, that San Francisco needs a transit link to the Airport, the criteria for which will be that it be part of the whole system, convenient, fast, have several stops downtown, and that it go directly to the Airport or, in the alternative, to Millbrae, with efficient shuttle service from there to the Airport. He added that the committee had learned that there must be coordination of transportation systems so that patrons can transfer between the Municipal Railway, BARTD, and A.C. Transit. As it stands now, there is no coordination between the three, and this could ruin the system.

Supervisor Boas summarized the questions which must be decided by San Francisco as follows and requested that the matter be referred to committee for consideration and recommendation to the full Board:

1. Should San Francisco have a transit system to the Airport?
2. Should it be rapid transit, monorail, or other?
3. How can a transit system best be financed?
4. Should it go directly to the Airport or to a nearby BARTD system and thence by shuttle service to the Airport?

5. If the people of San Mateo County do not approve a transit system for that county, should San Francisco be prepared to go it alone?
6. What can the Board do in cooperation with the Mayor to resolve the differences between BARTD, the Municipal Railway, and A.C. Transit relative to fares, transfers, and coordination of schedules?
7. Are there City-owned lands lying between San Francisco and the Airport which might be used for transit right-of-way or stations?

Referred to Streets and Transportation Committee.

Reference to Committee.

The following recommendation of Joint Finance and Cultural Activities Committee, heretofore considered and temporarily postponed, was taken up:

Amending the Administrative Code by adding Sections 28.10 through 28.13 thereto, establishing a Committee of Asian Art and Culture.

File No. 321-69-1, Ordinance No.

In response to a question by Supervisor Ertola, Deputy City Attorney Blanchard stated that he seriously questioned whether the amendment previously adopted by the Board would be acceptable either to the proposed committee or to Mr. Brundage. Mr. Blanchard questioned the propriety of stating as a permanent part of the Administrative Code that the committee must serve without cost to the City. He suggested rereferral to committee so the question can be considered along with the contract which is presently being reviewed.

Supervisor Francois, seconded by Supervisor von Beroldingen, moved rereferral to Joint Finance and Cultural Activities Committee.

No objection and motion adopted.

Adopted.

Supervisor Francois presented a communication from the Acting General Manager of Public Utilities, responding to Supervisor Francois' inquiry of last week, reporting on actions to date with respect to replacement of Municipal Railway rolling stock and coordination with the Bay Area Rapid Transit District system.

Supervisor Francois recalled several criticisms by the columnist, Dick Nolan, in which he raised the question as to whether any American manufacturers would be willing to manufacture cars designed under a German patent within the budget made available for that purpose and also questioned whether the City may find itself in a difficult situation because of lack of coordination for use in BARTD tunnels. Supervisor Francois requested referral to committee for hearings on these questions.

Request Granted.

Requesting Public Utilities Commission recommendations relative to transportation between San Francisco and the Airport.

Supervisor Mailliard called attention to the fact that the Board will be receiving specific proposals for construction of a monorail system of transportation between San Francisco and the Airport. He said he

felt it vital that the Board also have specific proposals for other modes of transportation so that the Board will be in a position to make a decision within a reasonable time.

Supervisor Mailliard requested that a communication be directed to the Public Utilities Commission, asking that they furnish the Board with specific proposals for—in their opinion—the best mode of transportation between San Francisco and the Airport.

No objection and Clerk directed to comply.

Requesting information relative to State Division of Highways' plans for connecting Interstate Highway 280 with Bayshore Freeway.

Supervisor Mailliard said he has been informed that the State Division of Highways has a proposal under consideration to connect Interstate 280 with the Bayshore Freeway and with the Airport, apparently via some overhead structures at the point of connection. He said he felt such structures could be very prejudicial to any plans the City might devise and that San Francisco should be completely informed as to just what the State Division of Highways plans in this regard.

Supervisor Mailliard requested that a communication over his signature be directed to the State Division of Highways, requesting to be informed of any plans they may have relative to the foregoing.

No objection and Clerk directed to comply.

Requesting comments on Phase III study report of the Youth Guidance Center by Bay Area Social Planning Council.

Supervisor Mendelsohn requested that a communication be directed to the Juvenile Justice Commission, asking for their comments on the recently completed report of the Bay Area Social Planning Council on its study of San Francisco's handling of juvenile offenders and asking if any legislative action by the Board of Supervisors is necessary to implement the suggestions.

Later on roll call, Supervisor Morrison requested that communications also be directed to the Bay Area Social Planning Council, asking for recommendations on priorities for implementing the plan and asking for an opinion as to how the Board of Supervisors can help in the implementation, and to the City Attorney and Controller, asking them to review the Phase III report and advise as to the most expeditious manner in which the Council's recommendations can be carried out.

No objection and Clerk directed to comply.

Reference to Committee.

Acquisition of Old Mint Building.

Supervisor Mendelsohn requested that the appropriate committee of the Board investigate the possibility of purchase by the City of the Old Mint Building and ask the Mayor for a report on any actions taken by his staff in response to Board of Supervisors' Resolution No. 405-68, reaffirming position of Board of Supervisors urging acquisition of the Old Mint Building for preservation as an historic monument.

Referred to State and National Affairs Committee.

Request Granted.**Requesting information relative to Army plans for additional housing at the Presidio.**

Supervisor Morrison called attention to plans of the Army for construction of residences along Lincoln Boulevard just above Baker's Beach. He said this is one of the most spectacular sites in San Francisco and the interests of San Francisco are deeply engaged if anything is done with that land.

Supervisor Morrison requested that a communication over his signature be directed to the Commanding General of the Sixth Army, asking him to acquaint the Board as precisely as possible with the Army's plans and suggesting that it would be well for San Francisco and the Army authorities to collaborate on planning the development before the Army proceeds with construction.

Supervisor Morrison requested that a communication go to the Director of Planning, asking for his comments on the proposed development and recommendations as to what further representations the Board should make to the Army.

Supervisor Morrison also asked that communications go to San Francisco's representatives in Washington, asking if they can use the Board's good offices to work out a system whereby the Army would collaborate with the City relative to use of Army land in San Francisco so that the Army's plans might be submitted for comment before being implemented.

Supervisor Ertola suggested, and Supervisor Morrison agreed, that the communication should include questions as to how the sewage that would be generated from additional housing will be disposed of.

No objection and Clerk directed to comply.

Requesting progress report on plans for construction of Hunters Point Freeway at Hunters Point Hill.

Supervisor Morrison recalled that about two years ago, when the Board approved freeway plans for Hunters Point Freeway, the Board excised from the map the segment of the freeway crossing Hunters Point Hill because the Board felt the freeway at that point should go underground.

Supervisor Morrison requested that a communication over his signature be directed to the State Division of Highways, asking what progress has been made in drawing up plans for construction of the Hunters Point Freeway under Hunters Point Hill pursuant to Board of Supervisors' Resolution 539-63, opposing Route A and requesting alternate proposal for tunnel route under Hunters Point Hill.

No objection and Clerk directed to comply.

Reference to Committee.

Statement.

Transportation between San Francisco and Marin County via ferryboat.

Supervisor Tamaras stated that the final report by Arthur D. Little Company on water transportation between San Francisco and Marin County will be in the hands of the Board on July 8, 1969. At that time the Board should move toward an integrated bus and ferry system, institution of which will require passage of A.B. 584, pending before the State Legislature. Supervisor Tamaras asked for immediate adoption of legislation favoring enactment of A.B. 584. (Note: By Resolution No. 273-69, adopted April 21, 1969, Board favored enactment of A.B. 584, authorizing Golden Gate Bridge and Highway District to establish and operate any and all modes of transportation between Marin and San Francisco Counties.)

Request Granted.**Requesting information relative to regulation of public restrooms on private property.**

Supervisor Blake called attention to the fact that a Shell Service Station at Bay and Taylor Streets has a ten-cent coin-operated device on the exterior door to the ladies' restrooms. He thought this a disgrace; such facilities should be free and open to the public.

Supervisor Blake requested that a communication be directed to the Director of Public Works, asking what rules and regulations are in effect in San Francisco relative to public restrooms in service stations.

Supervisor von Beroldingen requested, and President directed, that copy of communication be sent to the Public Utilities Commission.

ROLL CALL FOR THE INTRODUCTION OF MEASURES AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Request Granted.

Police activities to curb crime in the Tenderloin District.

Supervisor Blake stated that in past months he has received several complaints from business people in the Tenderloin District about crime in the area. He said that he has been reading in the press about measures being taken by the Police Department to try to combat street crime.

Supervisor Blake requested that a communication be directed to the Chief of Police, asking for a report on what the department is doing in this regard.

No objection and Clerk directed to comply.

Request Granted.

Needs of the Police Department.

Supervisor Tamaras stated that he was sure the Chief of Police is concerned about the problem of the rising incidence of street crime and that no member of the Board would be adverse to providing the department necessary funds to make the street safe for the law-abiding.

Supervisor Tamaras asked that a communication be directed to the Chief of Police, reiterating his previous request that the Board be informed as to ways in which it can assist the Police Department in making the City's streets safe.

No objection and Clerk directed to comply.

Noted and Ordered Filed.

Invitation to attend luncheon meeting of City officials.

Supervisor Ertola presented a communication from the Delinquency Prevention Commission of the City and County quoting an article in the San Francisco Chronicle of June 9 as follows: "Members of the city's many commissions, boards and committees will gather at a special lunch today to hear Mayor Joseph L. Alioto. In announcing the unusual gathering of more than 200 civic officials, the mayor's office said he will make a major address on the state of the City."

The communication went on to say that members of the Delinquency Prevention Commission were not considered in the list of civic officials invited to this luncheon and expressed concern about the future effectiveness of the work of the Commission if its existence is disregarded. The communication ended by requesting that this communication be read into the Journal of Proceedings of the Board of Supervisors.

Supervisor Morrison presented:

File No. 244-69.

Statement.

Plans for construction of additional Army housing at the Presidio.

Supervisor Morrison reported that he and Supervisor Tamaras had talked with the Commanding General of the Sixth Army about the housing development in the Presidio above Bakers Beach. General Larson feels some annoyance about the public furor that has occurred since he carried out Army regulations on the proposed development and sent a copy of plans to the Department of City Planning sometime ago.

Supervisor Morrison stated it is obvious to him that both the Army and the City have followed inadequate procedures to guarantee any kind of collaborative planning for the orderly development of the Presidio. He added that he and Supervisor Tamaras plan to talk with the Director of Planning and to work out procedures which will assure that San Francisco in the future will have an opportunity to hold public hearings and make recommendations to the Army on any new construction in the Presidio.

Later on roll call Supervisor Tamaras concurred in the statement of Supervisor Morrison.

STATEMENT OF TERRY A. FRANCOIS.

Is the Journey to the Moon a Wasp Venture?

“In an age of most serious domestic discord we are about to embark on a trip that will land the first man on the moon. This will usher in an era of scientific achievement unparalleled in the history of man. It is truly an event of which all Americans can take pride.

“There are, however, some questions which should be raised before we launch the final segment of these historic series of events.

“The space program has been supported and paid for by **all** Americans—even to the degree of being given priority over some of our more pressing problems here on earth, such as housing, employment, racial crisis, education, etc. No thinking American, however, would deny his pride in the cooperative efforts of all of our people to be the first country to land on the moon.

“I do think, however, that we should give serious thought to make sure that a true image of America is projected in this unprecedented flight.

“Is it by pure coincidence that those who have participated, and are scheduled to participate, as the inevitable heroes, the astronauts, are representative of but one portion of our multi-racial, multi-ethnic American society? Will future generations inquire as to where were the Blacks, the Browns, the Yellows, the Jews when these brave men conquered outer space? I am not even certain that a representative number of Catholics have been included among those chosen to serve as astronauts.

“Now some will say that the racial minorities may, by reason of their disadvantaged past, be unable to comprehend the complexities of the program. But why then, no Jewish astronauts? Surely a people who produced an Einstein should have members who can grasp the principles of astro-physics.

“The decision is to be made this Thursday, whether or not it is safe for Astronauts Edwin Aldrin, Jr., Neil Armstrong and Michael Collings to embark on the historic flight.

“Perhaps a postponement of this flight until such safety measures are taken to ensure a safer journey would be in order. This will also give America time to re-evaluate the image she wishes to project to the world and perhaps re-order our priorities. During this age of student rebellion, economic crisis, and racial tension—it would seem that we should avail ourselves of our greatest chance to tell the world that ours is a multi-racial, many faceted, diverse country of many talents, a unique claim which can only be made by America. It is time we tell that story to the world and to its history.”

Appropriating \$303,710 and rescinding appropriation of \$266,519, San Francisco Port Commission, for the creation of twenty-two positions and the abolishment of twenty-two position.

File No. 80-69-35, Ordinance No.

In response to a question by Supervisor Blake, Deputy City Attorney Stark advised that probably both a Charter amendment and an amendment to City's agreement with the State would be required in order that other departments of the City and County, for instance, Public Works and Purchasing, may serve the Port Commission in the same way they serve other departments.

Supervisor Blake requested that the City Attorney prepare such a Charter amendment as a preliminary for discussion with the Port Commission. Supervisor von Beroldingen suggested that the City Attorney be requested first to ascertain whether an amendment to the agreement between the City and County and the State would be required. Supervisor Blake agreed and asked that if the City Attorney finds such action possible, he proceed to prepare an appropriate Charter amendment.

The Chair asked Deputy City Attorney Stark to proceed as requested.

In response to questions of various Supervisors, Mr. James Wurm of the Civil Service Commission staff explained that positions under the Port Commission were reclassified because under the Charter the City and County is required to pay equal salary for equal work.

Supervisor Morrison referred to newspaper reports that the Recreation and Park Commission has approved the charging of admission to the zoo. The following called out of Finance Committee by Supervisor Blake was taken up:

Appropriating ((\$26,000)) \$21,000, Public Works, Engineering, for inventory of sidewalk space occupied by private persons or organizations.

File No. 80-68-55, Ordinance No.

Supervisor Blake, seconded by Supervisor Morrison, moved "do pass."

Supervisor Blake urged approval. He stated that several permits have been granted for sidewalk occupancy on Market Street for connections with the rapid transit system. A charge for these occupancies should have been determined before these permits were issued. If it should develop that the charge for occupancy will not be too high, many small businessmen may want to take advantage of the opportunity to connect with the rapid transit stations.

The Director of Property and Herman Beneke of the Department of Public Works advised that, in accordance with the recent opinion of the City Attorney, no occupant of sidewalk space can be charged for use of the space unless all such occupants are so charged and this will necessitate an extensive survey of at least two right-of-way agents and two construction experts for a period of about two months.

Samuel Duca of the Assessor's Office advised that the Assessor is presently doing a survey of all downtown properties, which includes sidewalk area occupied by private enterprise. He said his office will supply the Director of Property with any information they gain from that survey; at the present time they do not know what portions of the sidewalk space will be or can be used.

In response to questions, Deputy City Attorney Norman Wolff advised that all connections to the rapid transit system along Market Street must be considered as a separate class; if a charge is made for the occupancy permits already issued, then a uniform charge must be made for all other Market Street sidewalk occupancies.

John Barron of the Rapid Transit Task Force advised that Market Street will begin to be restored the end of this year. At that time it should be possible to gain some idea of the number of possible sidewalk connections to the rapid transit system. Some companies are retaining the right to make a future connection to BARTD.

Motion to Amend.

Supervisor Tamaras moved amendment by reducing the appropriation of \$26,000 to \$1,000 to survey the four properties already holding permits to make sidewalk connections to the rapid transit system.

Motion lost for want of a second.

Supervisor Francois, seconded by Supervisor Morrison, moved that the appropriation be reduced from \$26,000 to \$21,000 of which \$20,000 will be held in reserve and subject to release by Finance Committee.

Planning for a summer youth employment program for 1970.

Supervisor Pelosi called attention to the needs of young people for job opportunities during the summer. He said the City must realize that every year that it continues to operate as it has, there will be thousands of young people at the end of June who don't have anything to do with their time.

Supervisor Pelosi urged that the Mayor's Office, preliminary to public hearings by the Board of Supervisors, monitor all programs and activities at all levels during the next three months and be prepared in September to make recommendations for development of a program of employment opportunities and recreational, cultural, and educational activities for youth during the summer.

He added that when school commences in September, the Board should immediately commence hearings to work out a summer program for 1970—a program that does not depend on Washington, Sacramento, or the private sector. In this way costs can be determined and

the Board can make a decision as to whether or not it wishes to appropriate the money.

Tuesday, July 22, 1969—2:00 p.m.

In meeting of the Board of Supervisors, San Francisco, Tuesday, July 22, 1969—2:00 p.m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Quorum present.

President John A. Ertola presiding.

UNFINISHED BUSINESS.

Adopted.

The following from Finance Committee without recommendation was taken up:

Determining and declaring that public interest and necessity require the submission of a bond issue in the sum of \$9,998,000 for additions to and improvement of the recreation and park system.

File No. 335-69-1, Resolution No. 513-69.

The Clerk presented a telegram from L. P. Lewis, Executive Director, Model Cities Agency, urging that the Board not add any new items to the bond issue.

Noted and ordered filed.

Supervisor Morrison, seconded by Supervisor Gonzales, moved, as an amendment to the pending motion to amend, that the resolution be amended solely by increasing the total sum from \$9,998,000 to \$10,184,500.

Joseph M. Caverly, General Manager, Recreation and Park Department, recommended against the inclusion of funds in the proposed bond issue for acquisition of property on Mount Olympus.

After further discussion, Supervisor Morrison requested permission to withdraw the proposed amendment, stating that on roll call he will

introduce a proposed resolution declaring it to be the policy of the Board that additional lands on Mount Olympus be acquired for park purposes.

Determining and declaring that public interest and necessity require the submission of a bond issue in the sum of \$5,000,000 for school purposes to serve the Hunters Point Redevelopment Project Area.

File No. 366-69-1, Resolution No.

Supervisor Blake requested that the Journal reflect the fact that he again asked the Board to reconsider and to act so as to place subject proposed bond issue first on the ballot. He said that in his opinion schools are more important than are parks and recreation.

Supervisor Gonzales asked why the proposal must specify that the schools are to be in the Hunters Point Redevelopment Project Area. He suggested that the legislation might just specify for school purposes, since the School Department is aware of the area in which they feel the need exists.

Deputy City Attorney Kenealey requested that consideration be temporarily postponed so that he might contact bond counsel to see if they have any objection to such an amendment at this point.

No objection; temporarily postponed.

Supervisor Francois commented that he could see no reason for the City and County to go to this expense, since the claim could be denied by lapse of time.

Supervisor Francois, seconded by Supervisor Tamaras, moved re-referral to Committee.

Deputy City Attorney Stark advised that there is a requirement that the Board act on this matter, since statute provides that the claimant has six months after the claim has been denied by the Board of Supervisors to commence litigation.

There being no objection, Supervisor Francois withdrew his motion.

Appropriating \$15,000, Water Department, to engage qualified water rate expert to review staff recommendations for increases in water rates and service charges to customers of the Water Department.

File No. 80-69-43, Ordinance No.

In response to questions by Supervisor Morrison, Deputy City Attorney Cohen advised the Board that the Peninsular water users, through the association of which they are members, have retained counsel and have engaged water rate experts to prepare a case for them. In view of that fact, the City Attorney wrote to the General Manager of Utilities in June of 1969 advising that in his judgment it would be imprudent for the Public Utilities Commission and the Water Department to proceed with public hearings without the advice, assistance, and supporting testimony of its own independent rate experts.

Supervisor Francois joined by Supervisor Morrison and Supervisor Tamaras, requested that a communication be directed to the General Manager of Utilities asking for an estimate of the amount to be derived from the rate increase that will be available for deposit in the general fund and reminding him that if the taxpayers are to get some

relief this year from the increased revenues, the Public Utilities Commission must act quickly.

No objection and Clerk directed to comply.

Supervisor Blake, seconded by Supervisor Morrison, moved that subject legislation be amended to appropriate the money to the City Attorney rather than to the Water Department.

Deputy City Attorney Stark advised that subject legislation calls for an appropriation of Water Department funds for the purpose of hiring a rate expert. Supervisor Blake's motion would necessitate new legislation appropriating the funds from the general fund, in which there is no money available at the present time.

Supervisor Blake thereupon withdrew his motion to amend.

Passed for second reading by the following vote:

Ayes: Supervisors Blake, Boas, Francois, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—9.

Absent: Supervisors Ertola, Gonzales—2.

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

partment of Public Works to the Board of Education of certain real property located in the Diamond Heights-Glen Canyon area, required for the Diamond Heights Senior High School.

Acting Superintendent of Schools E. D. Goldman presented a communication, reporting on plans to ensure a racial balance of enrollment in the proposed Diamond Heights high school.

In response to a question by Supervisor von Beroldingen, Deputy City Attorney Stark advised that the Administrative Code requires that transfers of property under the jurisdiction of the public utilities commission shall be paid for on the basis of historical cost when such data is available.

He requested that a communication be directed to the Recreation and Park Commission asking that they give consideration to the feasibility of training hard-core unemployables as guards; that the cost of this training might be less than the cost of repairing vandalized property.

Garbage Disposal Plans.

Supervisor Mendelsohn stated that at the direction of the Joint Health and Finance Committee the Department of Public Works prepared a summary and report on the various garbage disposal possibilities received in Committee. That report recommended that the City accept the proposal of the City of Mountain View and that legislation would be reported out to the Board within the next two weeks.

Request Granted.

Housing within the South of Market Redevelopment Project area.

Supervisor Morrison made reference to the critical need for housing to accommodate persons displaced by the development of the Yerba Buena Center. He requested that the Clerk direct a letter to the Redevelopment Agency suggesting that the boundaries of the South of Market Redevelopment Project area be reviewed and possibly expanded to include a housing component, thus avoiding a drastic reduction of the existing supply of housing in the City. An Experiment in Communication.

Supervisor Pelosi commented upon the need for communication between the City's administration and San Francisco's citizens who find it difficult to attend daytime meetings. He suggested that the Mayor and the Chief Administrative Officer could fill this need by conducting meetings in the neighborhoods in the evenings or on Saturdays to inform people on the developments instituted by the City and to receive in turn their views on what is desired for improvement of their environment.

Supervisor Pelosi directed that the Clerk address a request to the City Attorney for a draft of legislation that would require the conduct of such neighborhood meetings.

No objection and Clerk directed to comply.

Reference to Committee.

Federal and State subventions to fight crime.

Supervisor Tamaras spoke of today's violence in the cities and the rising crime level in San Francisco. In order to determine the best avenue to pursue in this regard he requested that a Committee of the Board explore the possibility of and draft a resolution for request of Federal and State subventions for the purpose of fighting crime in San Francisco and urban communities in general.

Referred to State and National Affairs Committee.

Request Granted.

Low-cost housing constructed atop multi-storied garages.

Supervisor Tamaras spoke of the need of the elderly and persons on low budgets for low-cost public housing, primarily in the South of Market area, in an effort to keep them downtown and close to where the action is. He commented that other cities were putting stores and apartments over parking garages and, with today's money and interest, a plan to establish low-cost housing over multi-storied parking garages in San Francisco would seem to have merit. At the same time, the need for additional parking is important to keep downtown alive and vital. With this idea in mind, Supervisor Tamaras requested that the Clerk direct a communication to the Housing Authority, Parking Authority, Redevelopment Agency, and Planning Commission asking them to consider this type of plan for providing low-cost public housing in the South of Market area.

No objection and Clerk directed to comply.

Reference to Committee.

Completion of Municipal Railway subway system by BART.

Supervisor Pelosi requested that a Committee of the Board inquire into the plans of BART for a satisfactory completion of the Municipal Railway subway system which will be both attractive and easily accessible to its patrons, the financial ability of BART to guarantee completion, and the precautions San Francisco must take to prevent being shortchanged.

Referred to Streets and Transportation Committee.

Request Granted.**Installation of Mini-park in Glen Park District.**

Supervisor von Beroldingen spoke of a matter of concern to the residents of the Glen Park District. She stated that the Mini-park program proposed to establish these parks in neighborhoods who desired them. There has now been signed a petition by 66 residents of Glen Park objecting to the use of a vacant lot in that area as a mini-park as they do not want the undesirables that may be attracted to it. It was reported to her that at the time of a meeting set to discuss this proposal, at which 70 residents of the neighborhood attended, Mr. Tom Molloy had refused to hear from the opposition and did everything he could to deny them their hearing. Since an appeal was made to her and the Board has made it one of their concern, Supervisor von Beroldingen requested that the Clerk direct a letter to the Mayor requesting an explanation of Mr. Molloy's actions during this meeting.

No objection and Clerk directed to comply.

Adopted.**Motion that the Board award certificates of honor to the following:**

The chief of department shall recommend and the commission shall provide by rule for work schedules or tours of duty and the Board of Supervisors shall by ordinance establish the basic week of service which shall not be more than forty-eight hours, provided however that all tours of duty established for officers and members assigned to the fire fighting companies shall start at eight o'clock a.m. No such officer or member shall be required to work more than the basic week of service, nor shall any officer or member be required to work more than twenty-four consecutive hours except in case of a conflagration requiring the services of more than one-half of the force of the department. Officers and members may exchange watches with permission of the chief of department and time worked on such exchange of watches shall not be construed as time in violation of the limitation of the basic week of service nor twenty-four consecutive hours. Each such officer and each such member shall be entitled to at least one (1) day off duty during each week.

“When, in the judgment of the fire commission, it is in the public interest that any such officer or member shall work on his day off and said officer or member consents to so work, he may at

“On the recommendation of the chief of department, the commission may reward any officer or member of the department for heroic or meritorious conduct, the form or amount of said award to be discretionary with the fire commission, but not to exceed one month’s salary in any one instance.

“Officers and members of the uniformed force shall be entitled to the days declared to be holidays for employees whose compensations are fixed on a monthly basis in the schedule of compensations adopted by the board of supervisors, pursuant to the provisions of section 151 of the charter, as additional days off with pay. Officers or members required to perform service in said departments on said days shall be compensated as provided by ordinance of the board of supervisors or shall be granted equivalent time off with pay in the judgment of the fire commission.

“For payroll purposes, that portion of each tour of duty which falls within each calendar day shall constitute a single tour of duty.

“The rate of compensation for the service performed by officers or members on a holiday or for service performed on an assigned day off, as in this charter provided, shall be calculated by dividing the annual rate of pay for each fiscal year by the number of single tours of duty as scheduled for the several ranks in the fire fighting companies in said fiscal year.

“The chief of department or, in his absence, the chief officer in charge, may, during a conflagration, cause to be cut down or otherwise removed any buildings or structures for the purpose of checking the progress of such conflagration.

“The absence of any officer or member of the fire department on military leave of absence, as defined by section 153 of this charter, shall be reckoned a part of his service under city and county, for the purpose of computing years of service in gaining added compensation as provided in this charter.

Suspension of Rules.

Granting privilege of floor to proponents of initiative petition 82, providing that members of Board of Education shall be elected by district.

The Chair announced that, if the Board desires to grant the privilege of the floor to the proponents of initiative petition No. 82, it would be the Chair's intention to limit the time allotted to proponents

and opponents to approximately twelve minutes each. The Chair inquired as to the pleasure of the Board.

In response to questions by Supervisor Pelosi, Deputy City Attorney Stark advised that the only time limit which must concern the Board with respect to ordering a Charter amendment submitted to the voters is the requirement that proposed Charter amendments be published in a newspaper at least forty days before the election at which they will be voted upon.

In response to a question by Supervisor Francois, Deputy City Attorney Stark advised that it is within the power of the Board to order a proposed Charter amendment submitted to the electorate today without reference to Committee.

Supervisor Francois, seconded by Supervisor Mailliard, moved that the rules of the Board be suspended to grant the privilege of the floor to proponents and opponents of such a measure in accordance with time limits as prescribed by the Chairman.

Supervisor Blake, seconded by Supervisor Gonzales, moved, as an amendment of the pending motion, that consideration be continued to next Monday as a special order at 2:00 p.m. so that absent members might be present and so that adequate public notice can be given.

Assemblyman Willie Brown;

G. Rip Ridley, representing the Economic Opportunity Council and Western Addition Conference;

Ordered Submitted.

Motion that a declaration of policy be submitted to the electorate at the consolidated general and special election on November 4, 1969, on the question "Shall the Board of Education be elective?"

File No. 498-69.

Supervisor von Beroldingen stated that in view of the divergent opinions presented, it appears that the Board of Supervisors would act in the best interests of all concerned by placing on the ballot a very terse question that can be answered by the people with the full understanding of what it means and which will give the Board and the electorate a feeling for the sentiment of the community.

Supervisor von Beroldingen, seconded by Supervisor Morrison, moved that the Board order submitted to the electorate at the consolidated general and special election on November 4, 1969, the question "Shall the Board of Education be elective?"

Correcting clerical error in proposed Charter amendment, amending Section((s)) ((172.1 and)) 172.1.11 to provide that City and County pay Health Service System costs of employee members.

File No. 396-69.

Supervisor Francois stated that it was never intended that Section 172.1 be amended to delete the words "who are members of the retirement system." It was never discussed in Committee nor was it mentioned when the full Board took final action on this proposed charter amendment. Substitution of Section 172.1 for Section 172.1.3 was a clerical error.

In response to a question, Deputy City Attorney Stark affirmed the fact that if the Board determines there was a clerical error and the measure does not reflect the intention of the Board, that clerical error can be corrected at this time.

Supervisor Francois, seconded by Supervisor Morrison, moved that the Clerk of the Board be directed to correct a clerical error in the proposed Charter amendment by deleting all reference therein to Section 172.1.

No objection and motion adopted.

Adopted. (See infra.)

Recommending change in letter designations on ballot measures.

Supervisor Francois, seconded by Supervisor Pelosi, moved that letter designations on ballot measures be recommended to the Registrar of Voters to be changed as follows: Reverse designations for propositions "D" and "E" so that proposed revised Charter becomes Proposition "E" and the proposed amendment of various sections and additions of various sections relating to administration and working conditions applicable to the Police and Fire Departments becomes Proposition "D".

In response to a question by Supervisor Ertola, Deputy City Attorney Stark advised that it is within the province of the Registrar of Voters to designate the order of measures on the ballot; however, the Registrar has indicated he will abide by the wishes of the Board of Supervisors in this respect.

Supervisor Ertola stated that he opposed such action. He said he felt it unprecedented for the Board to suggest or attempt to change the order of measures on the ballot.

The Clerk presented a telegram from Miss Marguerite Warren objecting to any change in the order of measures on the ballot. Noted and ordered filed.

Supervisor von Beroldingen requested that communications be directed to the Department of City Planning and the Public Utilities Commission, asking (1) How the 1966 San Francisco Downtown Zoning Study has been implemented? (2) What are the peripheral areas

recommended for parking in the Downtown Parking and Traffic Survey? (3) What are the areas in the downtown, North Beach, and Fisherman's Wharf areas indicated for possible parking structures? Absent: Supervisor Blake—1.

Noted and Ordered Filed.**Initiative Petition No. 82 relating to election of members of Board of Education by District.**

At the suggestion of Supervisor Francois, the Chair called upon Acting Registrar of Voters, Virgil Elliott. Mr. Elliott presented an amended certificate to original initiative petition no. 82 and a communication advising that further examination reveals that the petition is signed by more than the required number of electors to qualify for placement on the ballot.

Noted and ordered filed.

In response to a question by Supervisor Tamaras, Deputy City Attorney James Stark advised the Board that it must order the initiative petition submitted to the voters at either a general or a special election.

Adopted.

The Clerk presented the following:

Calling and providing for a special election to be held in the City and County of San Francisco on Tuesday, November 4, 1969, for the purpose of submitting to the voters of the City and County a proposal presented through initiative petition to amend Charter Section 134, relating to the Board of Education.

File No. 498-69, Resolution No. 666-69.

In response to a question by Supervisor Blake, the Clerk stated that there were two options available to the Board with respect to submission to the voters, and possibly but not probably a third option. First, the initiative measure may be submitted at the November 4, 1969, election, since the City Attorney has advised us that it is qualified in all respects therefor. Second, it may be submitted at a special election to be called by the Board in the interim between November, 1969, and June, 1970, but if that is the Board's decision, it should be borne in mind that special election costs of approximately a quarter million dollars will be incurred. Third, although there is a possibility that submission at the election to be held in June, 1970, would be in order, the Superior Court has held in a recent similar case involving another county that such a lengthy period of deferment following filing of the petition would be prejudicial to the interests of the petitioners and therefore such deferment would not be acceptable to the court.

Supervisor von Beroldingen, seconded by Supervisor Tamaras, moved suspension of the rules to grant members of the public the privilege of the floor.

Motion adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—10.

Absent: Supervisor Gonzales—1.

Mr. Robert Nelson, President, Concerned Parents Association, stated that his organization feels very strongly that this initiative Charter amendment should go on the November ballot. He urged that Proposition "P", declaring policy that Board of Education should be elective, be removed from the November ballot.

Mr. Gordon Cutler, attorney-at-law, spoke in support of Mr. Nelson's requests.

Mr. Kamini Gupta and Mr. Frank Reilly both urged that the initiative Charter amendment and the policy declaration appear on the November ballot.

Failed.

Motion to rescind action ordering submission to the voters at the November 4, 1969, election the policy question "Shall the Board of Education be elective?"

Supervisor von Beroldingen moved that the Board rescind its action ordering submission to the voters at the November 4, 1969, election the policy question "Shall the Board of Education be elective?"

Motion lost for want of a second.

Explanation of Vote.

The Chair explained that the question before the Board is when the initiative Charter amendment shall be placed before the voters. Under law the Board is required to order a perfected initiative petition submitted to the electorate. In accordance with the Board's rules, if one vote is cast against the subject resolution, which has not heretofore

been considered by a Board committee, the matter is defeated and the Board will have decided not to order the initiative Charter amendment submitted at the next general election, in which case the Board would be required to call a special election at another date at a cost of approximately \$250,000.

The Chair urged all members—even if they do not wish to express themselves in favor of the proposal—to vote to place the question on the ballot for the forthcoming election on November 4, 1969.

Adopted.

Thereupon, the roll was called on the proposed resolution, File No. 498-69, calling and providing for a special election to be held in the City and County of San Francisco on Tuesday, November 4, 1969, for the purpose of submitting to the voters of the City and County a proposal presented through initiative petition to amend Charter Section 134, relating to the Board of Education.

Request Granted.**Expressing concern about the danger of aerial maneuvers over populated area.**

Supervisor Mendelsohn called attention to a recent collision of two U.S. Navy Blue Angel jet aircraft over San Francisco Bay. He said it is not difficult to imagine the possible tragic consequences if the aircraft crashed into the Bay Bridge or into downtown San Francisco.

Supervisor Mendelsohn requested that a communication be directed to the Federal Aviation Administration, expressing his concern about the danger of these jets practicing maneuvers over a populated area.

No objection and Clerk directed to comply.

Urging amendment of Business Tax Ordinance to increase revenue therefrom.

Supervisor Morrison invited the Board's attention to a communication from the Chief Administrative Officer in response to Supervisor Morrison's request that he and the Tax Collector review the results of the business tax. Arthur D. Little Company predicted that receipts from the business tax would be in the neighborhood of twenty-five million dollars; the Controller estimated receipts at nine million dollars this year. The report from the Chief Administrative Officer is frank in saying that this tax has not yet reached its full revenue potential.

Supervisor Morrison requested that communications be directed to the Chief Administrative Officer, Tax Collector, and City Attorney over his signature, asking that the City Attorney, in consultation with the others, draw up and deliver to him for presentation to the Board, amendments to the Business Tax Ordinance that will provide for a more normal filing cycle, increase revenue, and eliminate the possibility of evasion.

Supervisor Morrison also requested that a communication be directed to the Controller over his signature, asking him to review the tax structure of the Business Tax Ordinance, and report to the Board as to what amendment would be required to bring receipts therefrom up to a potential of twenty million dollars a year. Such an increase in receipts from this source would be a substantial aid to home owners and tenants of residential properties.

No objection and Clerk directed to comply.

Supporting efforts of Civil Service Commission to recruit policemen.

Supervisor Morrison requested that a communication be directed to the Civil Service Commission over his signature, saying that it is obvious that the problem of recruiting a sufficient number of policemen is not being dealt with adequately and that if the Commission needs additional staff to do the job, he would be happy to support legislation appropriating necessary funds therefor.

No objection and Clerk directed to comply.

Need for improvements at Bocce Ball Courts at Aquatic Park.

Supervisor Morrison requested that a communication be directed to the Recreation and Park Department over his signature, calling

attention to the long-standing need for a new shelter roof and rest-room facilities at the bocce ball courts at Aquatic Park and asking if any Board action is required in order to get this work done.

No objection and Clerk directed to comply.

Supplemental appropriation request for employment of policemen on their days off.

Supervisor Tamaras called attention to the increased incidence of crime in San Francisco. He said that many policemen work at other jobs on their days off. Supervisor Tamaras proposed that additional funds be appropriated to add two police patrols at regular salary for a period of four months to meet the cost of this vitally needed addition to the police force.

Supervisor Tamaras requested that a communication be directed to the Mayor, asking that he initiate a supplemental appropriation in the amount of \$150,000 for additional police patrols.

No objection and Clerk directed to comply.

Referred to Committee.

JOURNAL OF PROCEEDINGS BOARD OF SUPERVISORS

Tuesday, October 14, 1969—2:00 p.m.

In meeting of the Board of Supervisors, San Francisco, Tuesday, October 14, 1969—2:00 p.m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Quorum present.

President John A. Ertola presiding.

Presentation of the Mayor.

The Chair introduced and welcomed his Honor, Joseph L. Alioto, Mayor of San Francisco. The Mayor then proceeded to read his annual State of the City message.

APPROVAL OF JOURNAL.

There being no errors, corrections, or omissions, the Journal of Proceedings for the meeting of Monday, September 15, 1969, was considered read and approved.

Taken Up Out of Order.

There being no objection, at the request of Supervisor Francois, the following recommendation of the Fire, Safety and Police Committee, appearing on the calendar under "New Business" was taken up out of order:

Authorizing the temporary closing of a portion of Sanchez Street between 23rd and 24th Streets on October 26, 1969, for conduct of a street fair by the Noe Valley Parent Cooperative Nursery School.

File No. 42-69-31, Resolution No. 715-69.

Privilege of the Floor.

Due to the nature of the pros and cons of this subject, Supervisor

Francois asked that the public be granted the privilege of the floor so that they could state their views. There was no objection.

Discussion.

Mr. Harry J. Aleo, representing the Noe Valley Merchants Association, spoke in opposition and Mrs. Marie Gonzales, representing the Noe Valley Parent Cooperative Nursery School, spoke in favor of the street closing.

Adopted.

Adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailiard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Announcement.

The President of the Board announced that the Surplus Property Commission will hold a meeting on Monday, October 20, 1969, as a special order of business, to receive progress reports from the General Manager, Surplus Property Authority.

Discussion.

Supervisor Boas stated that it appeared everyone is trying to rush into a decision on Alcatraz Island because of the \$1,800 a month rent. He announced that there is a group of San Franciscans who are willing to pay the \$1,800 a month for six months. When the time is appropriate, he will make public their names. He will take it upon himself to write to the Surplus Property Commission, the Chief Administrative Officer and the Mayor informing them of this proposal and the pledge by these people.

Supervisor Pelosi asked that on the agenda for the Surplus Property Commission for next week's meeting, it include a progress report and consideration of rescission of the vote and consideration to extend the time limit. The President of the Board directed the Clerk to so include these items on the agenda.

There was a discussion of just what the resolution adopted by the Surplus Property Commission said with regards to the Lamar Hunt proposal for Alcatraz Island. Upon questioning by Supervisor Tamaras, Deputy City Attorney Robert J. Kennealy, stated that the resolution does not approve the plan outright but it does only in principle and that a firm plan must be presented and approved by the Surplus Property Commission.

Supervisor Francois stated that he is prepared to support a reopening of other proposals but still supports the Hunt proposal, unless there is something better presented.

Reference to Committee.

Recommending rescission of the Surplus Property Commission's motion regarding the use of Alcatraz Island, recommending a six-month delay in the final decision regarding the island, and recommending

that there be an early meeting of said commission and an adequate program of public hearings.

Supervisor Morrison presented:

File No. 535-69, Resolution No.

Referred to State and National Affairs Committee.

Supervisor Mendelsohn stated that Senator Alan Cranston is looking into the possibility of a permanent joint trusteeship of Alcatraz Island with San Francisco and the Federal government as trustees.

Clarification of Position.

Supervisor von Beroldingen stated that there should be a clarification concerning the Hunt plan for Alcatraz Island and its current status. When the full Surplus Property Commission voted for the Hunt plan, they did nothing more than authorize the Chief Administrative Officer to conduct negotiations with Mr. Hunt concerning the terms of a proposed form of agreement for his development of Alcatraz Island on the basis of the plan he presented to the Board. The Board has not approved anything more.

Further, Supervisor von Beroldingen stated that the Commission will have a full public hearing when a definite plan is presented. Also, at the present time, any other proposals may be presented and heard.

SPECIAL ORDER—2:00 P.M.

The following from the Streets and Transportation Committee was taken up:

He asked that communications be directed to the General Manager, Recreation and Park Department, and the Director of Planning, calling attention to the need of the residents of Geneva Terrace and Geneva Towers for recreation and park facilities and asking if there is any action the Board can take to speed along the program.

No objection and request granted.

Referred to Committee.**Requesting provision for citizen participation in rehousing of individuals within redevelopment project areas, pursuant to S.B. 146.**

Supervisor Morrison presented a communication from the Human Rights Commission, urging implementation of S.B. 146 by establishing and funding Project Area Committees in redevelopment project areas to provide for citizen participation, urging action to insure minimum displacement of individuals before new housing is available, urging that priority be given to the Housing Authority to use presently unused city-owned land for moderate- and low-cost housing.

Supervisor Morrison requested that a communication be directed to the Mayor over his signature, asking for early implementation of S.B. 146 in all redevelopment project areas and that a communication be directed to the Redevelopment Agency, also over his signature, asking for a report on its plans to implement S.B. 146.

No objection and Clerk directed to comply.

Proposing one-way fare plan for the Municipal Railway.

Supervisor Morrison said that he has been spending much time at bus stops recently, observing their operations in the mornings and evenings. Supervisor Morrison proposed a study of the feasibility of instituting a one-way fare plan for the Municipal Railway as a convenience for riders and for greater efficiency in city government.

He said that perhaps this would work as a start only for the central business district during commute hours: say from 6:00 a.m. to 9:00 a.m. and from 4:00 p.m. to 6:30 p.m., during which time inbound riders would pay a double fare and outbound riders would board free of charge. However, it might be that such a one-way fare plan would be feasible at all hours and all locations so that anyone riding inbound would pay double fare and anyone riding outbound would pay nothing.

Supervisor Morrison requested that communications over his signature be directed to the General Manager of Utilities and to the Public Utilities Commission, outlining his proposal and asking for an early recommendation to him and to the Board.

No objection and Clerk directed to comply.

Request Granted.

Calling for change in State law exempting lessor from liability for traffic citations issued to lessee of automotive vehicles.

Supervisor Pelosi stated that it has come to his attention that a large number of citations issued for illegal parking are dismissed because the vehicles are leased or rented.

Supervisor Gonzales explained that the State law exempts the lessor from any liability for traffic citations issued to lessees of automotive vehicles. In many cases the lessee is from out of state and simply leaves California without making any effort to pay the fine.

Supervisor Pelosi requested that a communication be directed to the Presiding Judge of the Municipal Court, asking for recommendations as to whether San Francisco should support a change in the present State law which exempts the owner of rented or leased vehicles from responsibility for traffic citations issued to lessees.

No objection and Clerk directed to comply.

Referred to Committee.

Endorsing concept of establishment of a regional housing and development agency in the Bay Area and calling upon the Mayor to explore the concept with other interested parties.

Supervisor Pelosi presented:

File No. 543-69, Resolution No.

Referred to Planning and Development Committee.

Request Granted.

Requesting Mayor and Chief Administrative Officer to consider holding public meetings in various districts of the City.

File No. 469-69.

Supervisor Pelosi recalled that a couple of months previous he had requested the City Attorney to draft legislation requiring the Mayor and the Chief Administrative Officer, or their duly appointed representatives, to conduct public meetings in the various districts and neighborhoods for the purpose of informing citizens about major developments proposed by local government.

He informed the Board that the City Attorney has informed him that the enactment of any such legislation is prohibited by Section 22 of the Charter.

Supervisor Pelosi said that he thinks the idea is sound and, in fact, necessary. He therefore, asked that communications be directed to

the Mayor and the Chief Administrative Officer, asking them if they do not think it a good idea to hold meetings in the various neighborhoods in order to increase citizen understanding and participation in local government.

No objection and Clerk directed to comply.

Calling for more efficient customs inspection at San Francisco International Airport.

Supervisor Tamaras stated that it has been called to his attention that passengers arriving at San Francisco International Airport are being delayed as much as an hour-and-a-half for customs inspection. He said he has researched this problem and finds from the Assistant General Manager for Administration at the Airport that within six months additional space can be made available for baggage handling, also, that the District Director of Customs has personnel available to speed up customs inspections at the Airport. The problem is that a feasible plan for improved inspection procedures has not been approved by Washington.

Supervisor Tamaras advised that he has contacted United States Senator Cranston and the Senator's office is working to expedite implementation of new procedures. Supervisor Tamaras expressed the hope that this problem will be solved in the near future.

Referred to Committee.

Approving and authorizing execution of agreement, amended ground lease, amended park lease with Recreation and Park Commission and San Francisco Stadium, Inc., approving and authorizing acceptance of assignment of stadium lease, approving final drawings and cost estimates for installation of artificial turf at Candlestick Park.

Supervisor von Beroldingen presented:

File No. 372-69-2, Ordinance No.

Referred to Finance Committee.

Request Granted.

Real property tax relief to senior citizens through institution of credit for a percentage of real property taxes paid the preceding year.

Supervisor von Beroldingen stated that she is very much concerned about the number of senior citizens who are losing their homes because of the spiraling tax rate.

Supervisor von Beroldingen requested that a communication be directed to the City Attorney, asking if State law prohibits a local government from affording real property tax relief to residents over the age of sixty-five years within a particular income bracket by means of granting a credit for a percentage of taxes paid the previous year.

No objection and Clerk directed to comply.

Street tree planting on Market Street.

Supervisor von Beroldingen stated that she believes evergreen trees should be chosen for planting on Market Street. She asked to be in-

Suspension of Rules.

Supervisor Francois, seconded by Supervisor Morrison, moved suspension of the rules to grant the privilege of the floor to one of the owners of property affected.

No objection and motion adopted.

The privilege of the floor was granted to Ralph Bryant, owner of a mortuary, who said that the Redevelopment Agency had told him he would be permitted to remain in business at his present location. Now the property is being rezoned for residential use, which will make his business nonconforming. Mr. Bryant said he had asked the Agency what price they would pay to purchase his property. They said they cannot make an offer unless Mr. Bryant makes a definite statement that he wishes to sell. This he does not wish to do without knowing what price he would get for the property.

Zoning Administrator Steele stated that there is no problem about the granting of a conditional use permit for this business; however, he could not estimate how the change in use classification would affect the market value of the property.

In response to a question by Supervisor Francois, Deputy City

Attorney Kenealey advised that the Board may not amend the legislation before it but, if it desires any change, must refer the legislation to the City Planning Commission for further consideration and recommendation. He called attention to the fact that the change in use classification is required in accordance with the redevelopment plans approved by the Board of Supervisors.

Supervisor Francois, seconded by Supervisor Morrison, moved that consideration be continued to November 17, 1969.

Motion adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

File No. 372-69-2, Ordinance No.

Supervisors von Beroldingen, Francois, and Tamaras spoke in support of the committee recommendation.

Supervisor Morrison stated that in his opinion this expenditure reveals a wrong sense of values and a wrong sense of priorities, that while he hoped the committee is right in their revenue of predictions, he predicts the taxpayers will pay a good deal for this improvement. Therefore, Supervisor Morrison said, he will vote against the measure.

Supervisor Boas stated that he feels the Board should spend generously for essentials. Expansion of the ballpark is not on his list of essentials; it does not meet his criteria of spending money for the most people with the most need.

There being no objection, on motion of Supervisor von Beroldingen, the privilege of the floor was granted to Thomas Gray, publicity agent for Candlestick Park, who spoke in favor of the proposed legislation.

This will request the Mayor to reactivate the former Maritime Committee to work toward having shipbuilding contracts let to local yards.

Supervisor Blake, seconded by Supervisor Morrison, moved adoption.

Adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Regulation of breakfast clubs.

Supervisor Blake presented newspaper clippings of articles by Robert Patterson for the San Francisco Examiner about the illegal activities taking place in so-called breakfast clubs. He stated that the State Alcoholic Beverages Commission has been ineffective in controlling these activities.

Supervisor Blake requested that a communication be directed to the Governor over his signature, calling attention to the problem of these breakfast clubs, telling him that the State Alcoholic Beverages Committee does not have a staff adequate to combat the sale of liquor in these establishments, and asking the Governor either to correct that situation or to transfer responsibility for policing to the City and County.

No objection and Clerk directed to comply.

Supervisor Blake also requested that the appropriate committee conduct hearings relative to this problem, with a view to recommending legislation to control the activities of breakfast clubs.

Later on roll call, Supervisor Francois requested that the Police Department be asked to prepare such Police Code amendments as their experience has indicated will make it possible to enforce more effectively the laws now in effect.

Later, Supervisor Mailliard requested that the City Attorney be asked to assist the Police Department in the drafting of legislation as suggested by Supervisor Francois and also to consider whether or not there may be other avenues of action to correct this problem; for instance, amendment of the Health Code might be appropriate.

Supervisor Morrison stated that a number of people have talked with him about the lack of day care facilities for children, especially in the Bernal Heights and Ingleside Districts.

Supervisor Morrison requested that communications be directed to the Department of Social Services and the Mayor, asking for a comprehensive report on the extent of San Francisco's child day care services and especially calling attention to the need for expansion of services in Bernal Heights and the Ingleside Districts and asking for a plan from each for expansion of this social service.

Request Granted.**Protesting use of motor vehicles on, and the shooting of birds at Ocean Beach.**

Supervisor Morrison said that he has received a strong complaint about the use of motor vehicles such as motorcycles and dune buggies on Ocean Beach and about the unrestricted target practice there and the shooting of shore birds. Supervisor Morrison said he has been assured by the Recreation and Park Department that they will see to it that the target practicing is abated but that the department was not aware of the passage of legislation prohibiting the use of motor vehicles on Ocean Beach.

Supervisor Morrison requested that copies of new Section 130 of the Park Code be forwarded to both the Recreation and Park Department and to the Police Department, with a request for enforcement.

No objection and Clerk directed to comply.

Calling for a municipal program to control smog.

Supervisor Morrison called attention to the terrible smog that covered San Francisco this last week. He stated that the City and County Government should have an official city program to combat the smog problem. The City itself is the worst smog offender in San Francisco with its 3200 smog-producing City vehicles, and should take the lead in working to eliminate the problem.

Supervisor Morrison said the City should join with the State and Federal governments in pilot programs to test non-smog producing modes of transportation, such as steam and electric, that the City should initiate lawsuits—such as have worked successfully in the State of New Jersey—to force airlines to use the new smokeless engines, that the City should join in Attorney General Thomas Lynch's lawsuit against the automobile manufacturers to prevent them from producing more automobiles from which the high smog output is injurious to all forms of animal and plant life.

Supervisor Morrison requested that (1) communications be directed to the Mayor, Department of Public Works, Public Utilities Commission, Police and Fire Departments, asking for their suggestions for an innovative program the City could begin to attempt to find new sources of vehicular power; (2) communication be directed to the City Attorney, asking him about the feasibility and advisability of filing actions in court against airline companies which are not using the new smogless jet engines; and (3) a communication be directed to the City Attorney, requesting that he report to the Board on the feasibility and desirability of San Francisco's joining in the Attorney General's suit against automobile companies to compel better smog control devices on automobiles.

No objection and Clerk directed to comply.

Statement.

Conditional use of property on the north side of Clipper Street near Hoffman Avenue for construction of a convalescent hospital.

File No. 304-66.

Supervisor Morrison called attention to the fact that the Board of Supervisors had overruled the City Planning Commission some three years ago to permit the conditional use of property on the north side of Clipper Street near Hoffman Avenue for construction of a convalescent hospital. He said that he has a letter from a representative of the East and West of Castro Street Improvement Club, saying that to date no building permit has been issued for construction of the proposed hospital, and proposing that the City take some action to rescind the permission granted for conditional use.

Supervisor Ertola advised Supervisor Morrison that a legal question is involved in this situation in that the application for building permit has been held up by City agencies.

Referred to Committee:

Amending the Police Code by repealing present Article 15.1 thereof and adding a new Article 15.1 thereto, relating to regulation of entertainment in cabarets, defining entertainment therein, the permit required, regulating the exposure of genitals, buttocks, or breasts of any person who acts as a waitress, entertainer or employee; providing for penalties for violation of the provisions thereof; providing for a severability and a savings clause.

Supervisor Tamaras presented:

File No. 568-69-3, Ordinance No.

Referred to Joint Fire, Safety and Police and Cultural Activities Committee.

Request Granted.**Deducting service charge from court-ordered payments to Adult Probation Department for child support.**

Supervisor Tamaras stated that it has been called to his attention that pursuant to Section 580.5 of the Welfare and Institutions Code, the City is deducting from court-ordered payments for child-support a two percent service charge. This deduction is being made on the basis of an opinion of the Attorney General's office. Supervisor Tamaras said that the City doesn't expect an indigent person to help pay for the service of the Public Defender, and he couldn't see why a child should help defray the costs of the Adult Probation Department.

Supervisor Tamaras requested that the City Attorney be asked to review existing state law and the City ordinance with a view to preparing legislation eliminating the deduction from the payments to a child.

No objection and Clerk directed to comply.

Announcement.**Retention of Fleet Post Office in San Francisco.**

Supervisor Tamaras recalled that a few weeks ago he had introduced legislation urging that the Fleet Post Office be retained in San Francisco. The Federal Government has announced that the Fleet Post Office will not be moved to Oakland, but will remain in San Francisco.

Request Granted.**Complaining of litter in the downtown area.**

Supervisor von Beroldingen presented a communication from M. K. Nessa, complaining about the litter on streets in the downtown area. She asked that the communication be referred to the Departments of Public Health and Public Works, asking for an investigation and report back to the appropriate committee.

No objection and Clerk directed to comply.

Referred to Committee.**Urging expeditious action by the Senate Committee on Labor and Public Welfare on HR 13000, providing a general increase in salaries for all employees of the Federal Government.**

Supervisor von Beroldingen presented:

File No. 567-69, Resolution No.

Referred to State and National Affairs Committee.

Adopted.**Requesting establishment of special low rates for senior citizens at municipal golf courses.**

Supervisor Blake presented:

File No. 563-69, Resolution No. 767-69.

Supervisor Blake, seconded by Supervisor Morrison, moved adoption.

Adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailiard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Request Granted.**Requesting permission to address the Board for the purpose of thanking members for assistance in retaining the Fleet Post Office in San Francisco.**

Supervisor Ertola announced that Mr. Athanatius Lou Maunupau, First Vice-President of Local 2 of the United Federation of Postal Clerks, wished to thank members of the Board personally for their support in retaining the Postal Fleet Unit, Postal Army Unit, and others slated to move to Oakland.

Supervisor Morrison, seconded by Supervisor Tamaras, moved suspension of the rules to permit Mr. Maunupau to address the Board.

No objection and motion adopted.

Mr. Maunupau thereupon expressed the appreciation of himself and all members of the Federation of Postal Clerks for the assistance of Board members.

Improvement of election procedures.

Supervisor Morrison questioned Acting Registrar of Voters Elliott about preparations for the forthcoming election. Supervisor Morrison expressed his dissatisfaction with the fact that precinct lists of registered voters were not available until four days before the election and that many voters have not as yet received their ballot pamphlets. He stated that it would appear the City has a long way to go in making the voting process fully efficient. First consideration is given to the convenience of the civil service staff rather than to the convenience of the voters.

Supervisor Morrison said he hoped the Registrar will continue with the reforms he has undertaken to date with a view to making voting even more convenient for the electorate.

Adopted.**Motion that the Board award certificates of honor to the following:**

Zonta International (Supervisor Ertola).

Bernice O'Leary (Supervisor Ertola).

Walter G. Jebe (Supervisor Ertola).

Sgt. Joseph Molinelli (Supervisor Mailliard).

File No. 2-69.

Adopted by a rising vote as follows:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Meeting Announcement.

Supervisor Blake announced a meeting of Streets and Transportation Committee Wednesday, November 12, 1969, at 2:00 p.m. to consider the foregoing File 281-69-3.

Presentation of Guest.

The Chair introduced and welcomed Supervisor-elect Dianne Feinstein.

Statement.

Election of President of the Board of Supervisors for two-year period beginning January 8, 1970.

Supervisor Boas said that there has been considerable discussion relative to the election of a Board president for the coming two-year period. He said that in his view it would be proper and healthy for the Board to caucus at the earliest possible moment so that this matter can be decided and the Board of Supervisors and the public will know

who the new President of the Board will be. He said that he believed Dianne Feinstein should be elected President.

The Chair announced that the Board will caucus on two personnel questions in the near future. Relative to the candidacy of Supervisor Blake for appointment to the Board of Directors of the Bay Area Rapid Transit District, the Board will caucus shortly after announcement of official results of the November 4, 1969, election. Relative to Presidency of the Board of Supervisors, that caucus will take place also after announcement of the official results and will be attended by incumbent and newly elected Board members.

Supervisor Francois stated that he believes the Board should continue the tradition of appointing as President the newly elected Supervisor receiving the most votes and that, therefore, Dianne Feinstein should be elected as President of the Board.

Referred to Committee.

Authorizing the temporary closing of Pine Street between Sansome and Montgomery Streets on November 14, 1969, for an "End War in Vietnam" rally.

Supervisor Francois presented:

File No. 42-69-41, Resolution No.

Establishing a Department of Corrections to operate the County Jail.

File No. 407-69-1.

Supervisor Francois requested that the appropriate committee of the Board consider the question of whether or not San Francisco should establish a Department of Corrections to operate the County Jail.

Referred to Fire, Safety and Police Committee.

Contract for tow-away operations.

Supervisor Francois announced that he has received a report from the City Attorney advising that he considers the rates charged for the towing of illegally parked cars to be reasonable. He said he is prepared to abide by the City Attorney's advice and for that reason he has no intention of pursuing the matter further but thought the Board should be aware of the City Attorney's report.

Referred to Committee.

Calling upon the members of every Board of Supervisors, interested citizens, and organizations in California to join in securing sufficient signatures on an initiative petition to place upon the November, 1970, ballot a proposed constitutional amendment to enable each county to fix different assessment ratios for business and industrial, multiple dwelling unit, and residential property.

Supervisors Francois and Mendelsohn jointly presented:

File No. 449-69-1, Resolution No.

Supervisor Mendelsohn presented:

File No. 287-69-4, Resolution No.

Referred to Health Committee.

Request Granted.

Calling for a municipal program to control smog.

Supervisor Morrison recalled that several weeks ago he had asked that several City departments come forward with programs which would put San Francisco in the lead in combating air pollution, pointing out that the City operates many motor vehicles and that the automobile is responsible for about seventy percent of the smog problem.

Supervisor Morrison presented a communication from Architectural Specialties, Inc. suggesting the use of butane as a substitute smog-free fuel, and a communication from Consolidated Engineering Technology Corporation, suggesting the use of methanol (wood alcohol) as a substitute fuel. Supervisor Morrison requested that communications over his signature be directed to the Department of Public Works and to the Manager of Utilities, forwarding the above-mentioned communications, and asking that the departments give the proposals their full consideration in their program for lessening air pollution.

No objection and Clerk directed to comply.

Undergrounding of utilities and law enforcement in the Upper Delmar Neighborhood.

Supervisor Morrison presented a communication from the Upper Delmar Street Neighborhood Improvement Association relative to problems in that neighborhood.

Supervisor Morrison requested that a communication over his signature be directed to the Department of Public Works, sending a copy of the communication from the Association, and asking for a report to him and the Board on the feasibility of going ahead in the near future with undergrounding of utilities. Supervisor Morrison also asked that a copy be sent to the Police Department with a request for comments relative to the proposals in the communication relative to law enforcement.

No objection and Clerk directed to comply.

Suggesting Federal and State action and methods of diversification of the local tax structure as a means of solving the urban crisis and easing the tax burden on the home owner.

Supervisor Morrison said that if cities are to solve the problems which have now reached a crisis stage, they must move locally and at the state and national level. He suggested three major ways in which the Board of Supervisors might become a goad to action: By pressing for increased revenue sharing by the Federal Government; working toward establishment of different assessment ratios for residential and commercial or income-producing properties; by diversification of the local tax structure.

In the latter regard, Supervisor Morrison said that the Board should bring the business tax up to its full predicted revenue of twenty million dollars a year. Or, it might be that the Board will wish to consider other forms of taxation. In any case, action must be taken locally to relieve the tax burden on the home owner.

Supervisor Morrison noted a statement in the report of the State Legislative Representative on the 1969 regular session as follows: "One of the other City's policy positions was a bill repealing a current Revenue and Taxation Code section prohibiting local governments from levying an income tax. Unfortunately, we could not get a single member of the Legislature to introduce this legislation." Supervisor Morrison said it seems odd that after the Board sets policy, not one of the City's representatives in the Legislature would be willing to introduce implementing legislation.

Supervisor Morrison requested that communications over his signature be sent to the City's representatives in the California Legislature, pointing out this statement of Mr. Shelley and asking if they would be willing to introduce such a measure at the next session.

No objection and Clerk directed to comply.

Trespassing on the Lincoln Park slide area in the 800 block of El Camino Del Mar.

Supervisor Pelosi requested that communications be directed to the Police Department, and to the Recreation and Park Department, ask-

ing for reports on the status of the problem raised by Mr. Alfred Fromm relative to trespassing on the Lincoln Park slide area in the 800 block of El Camino Del Mar.

No objection and Clerk directed to comply.

Referred to Committee.

Motion that committee hearings be held to determine the feasibility of developing and installing a planning-programming-budgeting system for the City and County.

File No. 345-69.

Supervisor Pelosi noted that the subject motion, which he had made last May is still being held in Rules Committee. He requested that the matter now be referred to appropriate committee so that hearings may begin immediately, looking toward implementation of procedures to bring about proper budgeting.

Referred to Rules Committee.

Meeting Announcement.

Supervisor Ertola announced a meeting of the Rules Committee immediately following today's Board meeting.

Request Granted.

Method of election of members of Board of Supervisors and Mayor.

Supervisor Pelosi said he felt it might be reasonable at this time to consider altering the system of electing members of the Board of Supervisors.

He asked that a communication be directed to the City Attorney asking him to prepare appropriate legislation to provide for election of members of the Board of Supervisors at large, but by numbered office, similar to the method employed for the election of local judges.

Supervisor Pelosi said that under this method of election, a candidate would be required to file for a particular numbered office, thus presenting an adversary contest to the electorate in which the incumbent's record could be a major issue.

Supervisor Pelosi also requested that the City Attorney consider drafting legislation providing for primary elections for the office of Mayor and members of the Board of Supervisors.

No objection and Clerk directed to comply.

Request Granted.

Anticipated revenue from present Business Tax.

In response to a question by Supervisor Tamaras, Controller Nathan Cooper stated that he cannot at this time make an estimate of the amount of revenue to be received under the present business tax. He said it appears now that his original estimate of eight million dollars annually is too high.

Supervisor Francois requested that a communication be directed to

the Arthur D. Little Company, asking why the business tax is not bringing in the twenty million dollars as estimated by them.

No objection and Clerk directed to comply.

Supervisor von Beroldingen expressed the opinion that the entire business tax should be reviewed and either restructured or repealed in favor of another form of tax.

Referred to Committee.

Appropriating \$25,000, Sheriff, for temporary salaries; an emergency measure.

Supervisor von Beroldingen presented:

File No. 134-69-3, Ordinance No.

Referred to Finance Committee.

Request Granted.

Requesting modernization of Police Department methods in order to minimize risk to public and members of the Police force.

Supervisor Gonzales called attention to two recent police incidents: the shooting of a suspected passer of bad checks on a busy downtown street and the recent high-speed chase through a residential area of a stolen car which resulted in the death of two innocent persons.

Supervisor Gonzales requested that a communication be directed to the Police Department, asking for a report to the appropriate committee of the Board detailing what the department is doing to modernize its methods and to operate at a minimum risk to the citizens and to the members of the Police force.

Supervisor Francois commented that he believed a major part of the problem is lack of direction to members of the force. He asked that this subject be added to Supervisor Gonzales' request.

No objection and Clerk directed to comply.

Adopted.

ROLL CALL FOR THE INTRODUCTION OF MEASURES AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Statement.

Opposing approval by the Golden Gate Bridge, Highway, and Transportation District of a bus transportation system between San Francisco and Marin County.

Supervisor Blake called attention to the fact that the Golden Gate Bridge, Highway and Transportation District has approved an integrated system of ferry and bus transportation between San Francisco and Marin County. Supervisor Blake said he wished the record to show that he is opposed to any additional bus traffic on the streets of San Francisco, particularly when for the convenience of nonresidents.

Request Granted.

Requesting preparation of legislation to institute a new method of budgeting for the City and County and to establish a staff of analysts for the Board of Supervisors.

Supervisor Boas stated that he has been concerned with his inability to analyze the budget for the City and County and that is the main reason for his support of the proposed Charter revision as disapproved by the electorate on November 4, 1969. The present method of budgeting is archaic and must be supplanted by a modern system of program budgeting.

Supervisor Boas requested that the City Attorney be requested to prepare appropriate legislation to be referred to Committee upon receipt, to accomplish the following: (a) Institute a method of budgeting as proposed in Revised Charter Section 6.200; and (b) Permit the Board of Supervisors to appoint legislative and administrative analysts, exempt from civil service provisions of the charter as proposed in Revised Charter Section 2.103 (b).

Supervisor Francois announced that last week the Fire, Safety and Police Committee had met to consider Supervisor Biake's proposal that there be committee hearings relative to existing problems of smut, pornography, lewd movies, etc., on Market Street. One of the problems referred to and stressed was the problem of alcoholism.

The Fire, Safety and Police Committee felt there is still much to be done to try to solve this problem and felt it should be taken up by the Health Committee.

Supervisor Francois requested that the Health committee obtain an up-to-date report from the Department of Public Health on the alcoholic detoxification program and that the Police Department be invited to be present during committee consideration to explain their problems in handling alcoholics.

Referred to Health Committee.

Request Granted.

Requesting report on presence of DDT in grapes being sold in San Francisco and the effect of DDT on the human body.

Supervisor Gonzales stated that there had been submitted to him results of recent tests showing a residue of DDT in grapes being sold in San Francisco. He said that if the State Department of agriculture will not protect San Francisco consumers by banning DDT on grapes as well as for use on other crops, it then becomes the duty of the Board of Supervisors to protect San Francisco consumers.

Supervisor Gonzales requested that the Department of Public Health be asked to investigate and report to the Board the pesticide content of the grapes sold in San Francisco stores and its effect on the human body and that upon receipt of the report it be referred to the appropriate committee for consideration.

Supervisor Morrison asked that the City Attorney be requested to

prepare a proposed Charter amendment incorporating those provisions requested by Local 400.

No objection and Clerk directed to comply.

DELETE paragraph reading "FURTHER RESOLVED, That this Board of Supervisors does hereby approve Resolution No. 8031 of the Recreation and Park Commission, a copy of which is on file with the Clerk of the Board of Supervisors in File No. , allowing the Department of Public Works to construct portions of said facility on property under the jurisdiction of that Commission."

ADD a paragraph reading "and be it FURTHER RESOLVED, That Resolutions Nos. 610-69 and 694-69 setting forth a policy in favor of construction of this facility on land located in the Presidio of San Francisco be and they are hereby rescinded."

Supervisor Blake suggested amendment to provide for cancellation of the contract to construct the dissolved air flotation facility in the event the City should terminate its agreement to dispose of sewage from the Presidio. Deputy City Attorney Kenealey stated that such a provision would be an entirely different subject and could not properly be included in subject legislation.

Supervisor Tamaras suggested amendment to provide that if, at a later time, the Department of the Army should grant permission to construct the air flotation facility on Presidio land, the facility will be moved at the Government's expense. Deputy City Attorney Kenealey advised that such an amendment would not be proper.

Later on roll call, Supervisor Morrison presented communications from the Family Service Agency, University of California Extension, and the Chinese American Democratic Club, Inc. He said that the difficulty is that the census will be taken this year largely by mail and by questionnaires in English only, which may result in many minority groups being overlooked. Motion to amend adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi, Tamaras, von Beroldingen—11.

Refused Adoption.

Motion to Continue Consideration.

Supervisor Mailliard, seconded by Supervisor Tamaras, moved that consideration be continued to January 12, 1970, so that the two newly elected Board members only may vote on the proposal.

Motion refused adoption by the following vote:

Ayes: Supervisors Ertola, Mailliard, Tamaras, von Beroldingen—4.

Noes: Supervisors Blake, Boas, Francois, Gonzales, Mendelsohn, Morrison, Pelosi—7.

Supervisor Mailliard stated that he has grave doubts as to whether or not the Mission Coalition represents the people of the Mission District. The by-laws give absolute control over the program to the Coalition; also, the language describing the make-up of the organization is not as specific as it should be. For these reasons, Supervisor Mailliard said, he urged a no vote on the proposal as presented to the Board today.

In response to questions by Supervisor Gonzales, Deputy City Attorney Kenealey said that the Board of Supervisors has the final authority for approving any application to the Federal Government for a model cities program. The Board may hear testimony from individuals other than the corporation here set up or the Coalition and include additions to the program within its application. Supervisor Gonzales stated that in his view the Mission Coalition is the best citizens group existing in the Mission District. He urged an aye vote.

Supervisor Mendelsohn read off the names of groups participating in the Mission Coalition. They will present a plan to the Board of Supervisors after which the Board will make the ultimate decisions. He said that if a bulldozing, redevelopment program in the Mission District is to be avoided, the City must go ahead with this plan.

Supervisor von Beroldingen said that she doubts that the Mission Coalition represents the people of the Mission District. She said that she foresees a great deal of conflict between two opposing viewpoints. Rather than solving problems, the City will be compounding existing problems by this action today. It is apparent that something must be

done when the Bay Area Rapid Transit District system is completed, but action at this time is premature. Action should be deferred until it becomes more apparent what effect the transit system will have on property values.

Supervisor Francois reminded the Board that the same people who are now opposing this proposal because of the alleged surrendering by the government of too much power to the Mission Coalition, several years ago opposed establishment of a redevelopment project area in the Mission because of too much government action. Supervisor Francois said he is convinced these people only want development of the Mission District by private speculators; under such private development, the poor and members of the minority groups presently living there will have no place. The Board must move now if government is to have any hand in the future of that community.

Supervisor Tamaras said that he has never seen a project begun with as much opposition as this. He said he would never support any project which is not representative of the area. There is nothing wrong with development by the private sector; people should not always look to government to do the necessary job.

Supervisor Morrison urged a favorable vote on the subject proposal. He said this concept is a significant step forward for putting the decision-making power in the hands of the people of the neighborhoods. One of the great problems of this age is the development of institutional forms of government which will allow people in the neighborhoods to have a greater say in the decisions that affect their lives so closely. Supervisor Morrison added that he has no doubt the Coalition has problems in broadening the base of its support, but it does have widespread support and is the most effective and promising tool to organize this district which very badly needs help from the government.

Supervisor Pelosi asked that the record contain the following questions and responses:

Supervisor Pelosi: Is there anything whatsoever in the by-laws before us which provides for power of condemnation by the Mission Coalition or the Model Neighborhood Corporation?

Deputy City Attorney Kenealey: No. The power of condemnation is delegated to the City and County under State law. It cannot be delegated to a private organization.

Supervisor Pelosi: Please tell us what model cities legislation means in terms of programs, apart from physical buildings or structures.

Assistant Deputy for Development Anderson: All kinds are possible under this program. It embraces all Federal agencies, including Health, Education and Welfare, job training, unemployment, transportation, recreational facilities, education. It invites innovative ideas about how to use the supplemental funds. It invites you to list the problems and state what you want to do about them and to state your priorities.

Supervisor Pelosi: Upon completion of this study, the Board could request that grants be given for education, for health services, or job training and make no request for funds for physical facilities?

Mr. Anderson: That is true; however, if you identify problems, you must say what you are going to do about them. There is no prerequisite about what you must submit in the program.

Supervisor Pelosi: Please tell us whether or not in this document any group or persons or organizations have any power whatsoever regarding veto of any program this Board might submit to the Federal government?

Deputy City Attorney Kenealey: The contract, the by-laws, and the resolution before you do not provide for veto power over decisions of the Board of Supervisors. The City Attorney has rendered an opinion that such a veto power could not exist. If the Board desires to add programs to a plan for submission to the government, this Board would have the authority to add such programs. Under provisions of the City's Administrative Code, all applications to the Federal Government for grants must be approved by the Board of Supervisors.

The roll was thereupon called on the question of adopting subject legislation.

Approving sixteen-foot sidewalk widths on Market Street from the Central Freeway to the vicinity of Castro Street except at entrances to underground transit stations and other areas requiring twenty-four foot width; approving engagement of architectural consultants to prepare schematic design plans for beautification of Market Street, from the Central Freeway to the vicinity of Diamond Street.

File No. 137-69-16, Resolution No. 849-69.

In response to questions by various Supervisors, Mr. J. M. Barron, Project Manager, Transit Task Force, stated that at the present time it is not known what the beautification of Market Street beyond the Central Freeway will cost. It is not intended that it should be at the same scale as on lower Market Street. The money for preparation of schematic design plans will come from funds already budgeted for the Task Force. Funds for actual construction are not allocated at this time but may come out of street lighting funds, gas tax money, or Federal funds.

Mr. Barron said that the design work should be completed in about four to six months, after which the plans will be brought to the Board for approval and for funding. Actual work will be done in conjunction with BARTD's construction of the Municipal Railway underground facility along Market Street, which should be completed by the latter part of 1972.

In response to a question by Supervisor Ertola, Mr. Barron said that his staff will take into account the Supervisor's request that consideration be given to installation of bicycle lanes on Market Street; however, one must realize the roadway will only be fifty feet wide, with two twelve-foot lanes for traffic. Bicycles on the street could create a problem.

Request Granted.

Requesting that berthing space for small boats be made available at floats under the jurisdiction of the City for the transport of food and supplies to American Indians on Alcatraz Island.

Supervisor Morrison referred to the fact that individuals who are

aiding the American Indians on Alcatraz Island by furnishing them with food and supplies are having difficulty in getting supplies loaded onto small boats because there is almost no place on the San Francisco waterfront where one can step onto a float before stepping aboard a small boat. He said that, whatever one may think about the propriety of the Indians' presence on Alcatraz, one must conclude that it is with the acquiescence of the Federal Government, so San Francisco should act so as to ease the state of the persons there.

Supervisor Morrison requested that a communication over his signature be sent to the Director, Recreation and Park Department, and to the Recreation and Park Commission, outlining the problem and asking the Commission whether berthing space for small boats can be made available at floats under the jurisdiction of the City at the Marina Yacht Harbor or Gas House Cove.

Requesting recommendations for action to control the unpleasant odors produced by some industries on the waterfront.

Supervisor Pelosi stated that recently a high-pressure area to the west of the city has caused an easterly wind which has blown over the City unpleasant odors produced by some of the industries along the Bay waterfront. He said that while this is not a usual occurrence, it does happen on occasion, making the City environment at least temporarily unpleasant. During these occasional periods, the rest of San Francisco must endure what must be a constant condition for the people who live in the area where these odors are produced.

Supervisor Pelosi requested that a communication be directed to the Director of Public Health, calling this situation to his attention and asking for suggestions as to how it might be corrected.

No objection and Clerk directed to comply.

Requesting information relative to San Francisco's financial relationship to the Golden Gate Bridge, Highway and Transportation District.

Supervisor Pelosi requested that the City Attorney be asked to render an opinion relative to the following questions: (1) What is the liability of San Francisco and its property owners for any loss which might result from implementation of a mass transit system by the District; (2) In the event the District is dissolved and there is a surplus of funds, what portion of the money, if any, might San Francisco legitimately be entitled to?

No objection and Clerk directed to comply.

Referred to Committee.

Requesting determination relative to desirability of placing advertising in Bay Area Rapid Transit District stations and cars.

Supervisor Pelosi stated that it has come to his attention that the Bay Area Rapid Transit District is contemplating placing advertising matter in its stations and cars. He asked that the appropriate committee of the Board conduct an inquiry as to the feasibility of the District's contemplated action and whether or not it is within San Francisco's interest to have such advertising in the BARTD system.

Referred to Streets and Transportation Committee.

Motion adopted by the following vote:

Ayes: Supervisors Boas, Ertola, Francois, Gonzales, Mailliard, Mendelsohn, Morrison, Pelosi—8.

Explanation of Vote.

Supervisor Blake explained that he will vote against subject legislation because, in his opinion, San Francisco must solve her own problems. Other counties are attracting industry because assessments there are lower than in San Francisco. A policy must be set here which will attract small business.

ROLL CALL FOR THE INTRODUCTION OF MEASURES AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Statement.

Appeal of Supervisor Blake from increase in real property assessment.

Supervisor Blake stated that last week he received a corrected tax bill increasing the amount of taxes payable on various parcels of real property owned by him. He said that people are blaming the Board of Supervisors for the increase in their real property taxes, not realizing that much of the increase is due to action of the Assessor in raising assessments.

Supervisor Blake stated that, in his opinion, the Assessor has in many cases placed an assessed valuation on property beyond its fair market value. He said that he has filed an appeal from the increase in assessments and that probably many hundreds of other property owners would be justified in doing the same.

Statement.

Delay in institution of bi-weekly payment of salaries and wages.

At the request of the Chair, Controller Nathan Cooper advised the Board that the Integrated Personnel System will not be operable on January 1, 1970, as planned. The system takes controlled data very well but when masses of data are put in, the system fails. This must be corrected in order that employees' pay warrants will not be delayed. Therefore, Mr. Cooper said, he will ask for an extension of time to July 1, 1970, for institution of the bi-weekly payment of salaries and wages. Bi-weekly payment of salaries and wages will go into effect at that time even if the Integrated Personnel System is not functioning.

Meeting Announcement.

The Chair announced a caucus of the Board immediately following today's meeting.

Requesting placement of protective barrier at edge of sidewalk near the intersection of Palou and Silver Avenue.

Supervisor Pelosi presented a communication from Edward E. Serres, Attorney-at-Law, on behalf of Mrs. Marie Guiraud, 1911 Palou Avenue, requesting placement of a protective barrier at the edge of the sidewalk near the intersection of Palou and Silver Avenue to protect her and her property from injury caused by automobiles veering left from Palou to Silver Avenue.

Supervisor Pelosi requested that a communication be directed to the Department of Public Works over his signature, asking that department to install the protective barrier as requested by Mr. Serres.

No objection and Clerk directed to comply.

Offering assistance in recruitment of a qualified investment manager for the Retirement System.

Supervisor Pelosi requested that a communication be directed to the Civil Service Commission, asking if there is anything the Board of Supervisors can do to assist the Commission in recruiting a qualified person to manage investment of the retirement system funds. Supervisor Pelosi said that this money is public trust money, and if it is not being properly managed, every employee and taxpayer is injured.

No objection and Clerk directed to comply.

Suggesting that Public Utilities Commission apply for Federal funds for a demonstration project for disposal of solid wastes at airports.

Supervisor Tamaras stated that it has come to his attention that the nation's major airports, which in some ways are like small cities, have an increasing solid-waste-disposal problem, the type of waste being, in many cases, more difficult to dispose of than the wastes generated in small cities.

Supervisor Tamaras requested that a communication be directed to the Public Utilities Commission, suggesting that the Commission consider the possibility of applying for Federal funds for establishment of a demonstration project for the disposal of solid wastes at airports.

No objection and Clerk directed to comply.

Referred to Committee.

Designating March 21, 1970, as Earth Day.

Supervisor Tamaras presented:

File No. 623-69, Resolution No.

Referred to Cultural Activities Committee.

Request Granted.

Requesting study of Business Tax Ordinance.

Supervisor von Beroldingen requested that a communication be directed to the Tax Collector, asking him to examine the entire business tax ordinance in an attempt to discover where any inequities may lie and to see if there is some way of restructuring the ordinance so that it will not inflict injury on the small businessman and yet at the same time yield a higher revenue. Supervisor von Beroldingen requested that the Tax Collector also be asked to report on the cost of enforcement if the ordinance were to be restructured, and to consider other possible sources of revenue, such as a tax on alcoholic beverages or cigarettes.

No objection and Clerk directed to comply.

With respect to the foregoing request of Supervisor von Beroldingen, Supervisor Morrison recalled that on October 7, 1969, in response to his request in Board, communications had been directed to the Controller, City Attorney, and Chief Administrative Officer, asking for a review and report on the business tax ordinance, with suggestions for amendment to make the tax more equitable while increasing revenue therefrom. Supervisor Morrison requested that follow-up communications be directed to the aforementioned addressees, asking for a response to his communication of October 7, 1969.

No objection and Clerk directed to comply.

Urging that State aid to the totally disabled be made available to persons disabled because of addiction to the use of alcohol or drugs.

Supervisor von Beroldingen called attention to the fact that persons who are unable to work because they are addicted to the use of alcohol or drugs are presently not recognized by the State Department of Social Welfare as being disabled; therefore, any aid rendered must be through general assistance funds, which come from the county.

Supervisor von Beroldingen requested that a communication be sent to the Area Director, State Department of Social Welfare, requesting that she use her good offices to urge the State Legislature to take a more realistic and modern view of what constitutes a totally disabled person and to include those who are disabled because of the use of alcohol or drugs among persons eligible to receive State aid to the totally disabled.

No objection and Clerk directed to comply.
